Report on review of interim condensed consolidated financial information

To the board of directors of
National Industries Company – KPSC
Kuwait

Introduction
We have reviewed the accompanying interim condensed consolidated statement of financial position of National Industries Company – KPSC (Kuwaiti Public Shareholding Company) (the "Parent Company") and its subsidiaries (collectively the "Group") as of 30 June 2017 and the related interim condensed consolidated statements of profit or loss, profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review
We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion
Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, "Interim Financial Reporting".

Report on review of other legal and regulatory requirements
Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016, and its Executive Regulations, or of the Memorandum of Incorporation and Articles of Association of the Parent Company, as amended, have occurred during the six-month period ended 30 June 2017 that might have had a material effect on the business or financial position of the Parent Company.

Notes to the interim condensed consolidated financial information

1 Incorporation and activities

National Industries Company – KPSC (the parent company) was incorporated on 1 February 1997 as a Kuwaiti public shareholding company and its shares are listed on the Kuwait Stock Exchange. The parent company is a subsidiary of National Industries Group Holding – KPSC ("ultimate parent company").

The main objectives of the parent company are as follows:

- Manufacturing and marketing building materials and infrastructure products.
- Practicing all industrial activities, re-manufacturing and related activities and implementing those activities directly or through a third party to the account of the company or the third party after obtaining the necessary industrial licenses from the competent authorities.
- Implementing studies, researches and development and providing consultations in all kinds of industrial fields.
- Practicing trade of the materials related to the activities of import, export and marketing of products.
- Transportation, clearance, storage and packaging of raw materials and products and acquisition of the necessary means of transportation and storage.
- Quarry works and extraction, trading, formation and manufacturing of sands and rocks and import of the necessary equipment.
- Acquisition and rental of the movables and real estate properties necessary to carry out the company's activity and market its products.
- Establishing companies or participating therein with other parties to carry out the company's activities.
- Investing surplus funds in financial portfolios managed by specialized companies.
- The company may carry out the above activities inside and outside Kuwait.

The group comprises the parent company and its subsidiaries.

The address of the parent company's registered office is PO Box 3314, Safat 13034, State of Kuwait.

The parent company's board of directors approved this interim condensed consolidated financial information for issue on 2 August 2017.

2 Basis of preparation

The interim condensed consolidated financial information of the Group has been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting". The accounting policies used in the preparation of the interim consolidated condensed financial information are consistent with those used in the preparation of the most recent annual consolidated financial statements of the group for the year ended 31 December 2016 except for adoption of relevant new standards, amendments to certain standards and interpretations discussed below.

The interim condensed consolidated financial information has been presented in Kuwaiti Dinars which is the functional currency of the group.

Notes to the interim condensed consolidated financial information (continued)

2 Basis of preparation (continued)

This interim condensed consolidated financial information does not include all information and disclosures required for complete financial statements prepared in accordance with the International Financial Reporting Standards. In the opinion of management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included.

Operating results for the six-month period ended 30 June 2017 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2017. For further details, refer to the consolidated financial statements and its disclosures for the year ended 31 December 2016.

3 Changes in accounting policies

3.1 New and amended standards adopted by the group

A number of new and revised standards are effective for annual periods beginning on or after 1 January 2017 which have been adopted by the group but did not have any significant impact on the financial position or the results for the period. Information on these new standards is presented below:

Standard or Interpretation	*Effective for annual periods beginning*
IAS 7 Statement of Cash Flows- Amendments	1 January 2017

IAS 7 Statement of Cash Flows- Amendments

The Amendments are designed to improve the quality of information provided to users of financial statements about changes in an entity's debt and related cash flows (and noncash changes)

The Amendments:

- require an entity to provide disclosures that enable users to evaluate changes in liabilities arising from financing activities. An entity applies its judgement when determining the exact form and content of the disclosures needed to satisfy this requirement
- suggest a number of specific disclosures that may be necessary in order to satisfy the above requirement, including:
  - changes in liabilities arising from financing activities caused by changes in financing cash flows, foreign exchange rates or fair values, or obtaining or losing control of subsidiaries or other businesses
  - a reconciliation of the opening and closing balances of liabilities arising from financing activities in the statement of financial position including those changes identified immediately above.

3.2 IASB Standards issued but not yet effective

At the date of authorisation of this interim condensed consolidated financial information, certain new standards, amendments and interpretations to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the group.

Management anticipates that all of the relevant pronouncements will be adopted in the group's accounting policies for the first period beginning after the effective date of the pronouncements. Information on new standards, amendments and interpretations that are expected to be relevant to the group's consolidated financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the group's interim condensed consolidated financial information.

IFRS 10 and IAS 28 Sale or Contribution of Assets between and an Investor and its Associate or Joint Venture - Amendments

The Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011) clarify the treatment of the sale or contribution of assets from an investor to its associate or joint venture, as follows:

- require full recognition in the investor's financial statements of gains and losses arising on the sale or contribution of assets that constitute a business (as defined in IFRS 3 Business Combinations)
- require the partial recognition of gains and losses where the assets do not constitute a business, i.e. a gain or loss is recognised only to the extent of the unrelated investors' interests in that associate or joint venture.

These requirements apply regardless of the legal form of the transaction, e.g. whether the sale or contribution of assets occurs by an investor transferring shares in a subsidiary that holds the assets (resulting in loss of control of the subsidiary), or by the direct sale of the assets themselves.

IASB has postponed the effective date indefinitely until other projects are completed. However, early implementation is allowed.

IFRS 2 Share-based Payment- Amendments

The amendments relate to clarification on the following:

- IFRS does not specifically address the impact of vesting and non-vesting conditions on the measurement of the fair value of the liability incurred in a cash-settled share-based payment transaction. The Amendments address this lack of guidance by clarifying that accounting for these conditions should be accounted for consistently with equity-settled share-based payments in IFRS 2
- The amendment adds guidance to IFRS 2 to the effect that a scheme with compulsory net-settlement feature would be classified as equity-settled in its entirety (assuming it would be so classified without the net settlement feature); and
- The amendment addresses the accounting for a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

IFRS 9 Financial Instruments

The IASB published IFRS 9 'Financial Instruments' (2014), representing the completion of its project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. The new standard introduces extensive changes to IAS 39's guidance on the classification and measurement of financial assets and introduces a new 'expected credit loss' model for the impairment of financial assets. IFRS 9 also provides new guidance on the application of hedge accounting.

3 Changes in accounting policies (continued)

3.2 IASB Standards issued but not yet effective (continued)

IFRS 9 Financial Instruments (continued)

Management has started to assess the impact of IFRS 9 but is not yet in a position to provide quantified information. At this stage the main areas of expected impact are as follows:

- the classification and measurement of the financial assets will need to be reviewed based on the new criteria that considers the assets' contractual cash flows and the business model in which they are managed.
- an expected credit loss-based impairment will need to be recognised on the trade receivables and investments in debt-type assets currently classified as available for sale and held-to-maturity, unless classified as at fair value through profit or loss in accordance with the new criteria.
- it will no longer be possible to measure equity investments at cost less impairment and all such investments will instead be measured at fair value. Changes in fair value will be presented in profit or loss unless an irrevocable designation is made to present them in other comprehensive income.
- if the fair value option continues to be elected for certain financial liabilities, fair value movements will be presented in other comprehensive income to the extent those changes relate to own credit risk.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 replaced IAS 18 "Revenues", IAS 11 "Construction Contract" and several revenue – related Interpretations and provides a new control-based revenue recognition model using five-step approach to all contracts with customers.

The five steps in the model are as follows:

- Identify the contract with the customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contracts
- Recognise revenue when (or as) the entity satisfies a performance obligation.

The standard includes important guidance, such as

- Contracts involving the delivery of two or more goods or services – when to account separately for the individual performance obligations in a multiple element arrangement, how to allocate the transaction price, and when to combine contracts
- Timing – whether revenue is required to be recognized over time or at a single point in time
- Variable pricing and credit risk – addressing how to treat arrangements with variable or contingent (e.g. performance-based) pricing, and introducing an overall constraint on revenue
- Time value – when to adjust a contract price for a financing component

Notes to the interim condensed consolidated financial information (continued)

3 Changes in accounting policies (continued)

3.2 IASB Standards issued but not yet effective (continued)

IFRS 15 Revenue from Contracts with Customers (continued)

- Specific issues, including –
  - non-cash consideration and asset exchanges
  - contract costs
  - rights of return and other customer options
  - supplier repurchase options
  - warranties
  - principal versus agent
  - licencing
  - breakage
  - non-refundable upfront fees, and
  - consignment and bill-and-hold arrangements.

IFRS 16 Leases

IFRS 16 will replace IAS 17 and six related Interpretations. Leases will be recorded on the statement of financial position in the form of a right-of-use asset and a lease liability.

Management is yet to fully assess the impact of the Standard and therefore is unable to provide quantified information. However, in order to determine the impact, management is in the process of:

- performing a full review of all agreements to assess whether any additional contracts will now become a lease under IFRS 16's new definition
- deciding which transitional provision to adopt; either full retrospective application or partial retrospective application (which means comparatives do not need to be restated). The partial application method also provides optional relief from reassessing whether contracts in place are, or contain, a lease, as well as other reliefs. Deciding which of these practical expedients to adopt is important as they are one-off choices
- assessing their current disclosures for finance and operating leases as these are likely to form the basis of the amounts to be capitalised and become right-of-use assets
- determining which optional accounting simplifications apply to their lease portfolio and if they are going to use these exemptions
- assessing the additional disclosures that will be required.

Annual Improvements to IFRSs 2014-2016 Cycle

Amendments to IAS 28 - Clarifies that a qualifying entity is able to choose between applying the equity method or measuring an investment in an associate or joint venture at fair value through profit or loss, separately for each associate or joint venture at initial recognition of the associate or joint venture. Amendment is effective for annual periods beginning on or after 1 January 2018.

4 Judgement and estimates

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Notes to the interim condensed consolidated financial information (continued)

4 Judgement and estimates (continued)

In preparing this interim condensed consolidated financial information, the significant judgements made by management in applying the group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited consolidated financial statements as at and for the year ended 31 December 2016.

12 Annual General Assembly

The annual general assembly of the shareholders held on 21 May 2017 approved the consolidated financial statements for the year ended 31 December 2016 and cash dividend of 10 Fils (2015: 20 Fils) per share amounting to KD 3,499,212 (2015: KD 6,970,189) for the year ended 31 December 2016.

Further, the annual general assembly of shareholders approved directors' remuneration amounting to KD150,000 for the year ended 31 December 2016 which has been recognised within expenses in the interim condensed consolidated statement of profit or loss.

Furthermore and subject to the approval of concerned authorities, the annual general assembly approved to increase the parent company's share capital by 7,000,000 shares through staff bonus scheme. The scheme continues for a five year period beginning 2017 under which a maximum of 7,000,000 shares will be granted to the participants over that period. Options under the scheme will vest if certain conditions, as defined in the scheme, are met. The legal formalities to authenticate this scheme with the concerned authorities are still in progress.

16 Financial risk management

All aspects of the group's financial risk management objectives and policies are consistent with those disclosed in the annual audited consolidated financial statements for the year ended 31 December 2016.

17 Fair value measurement

17.1 Fair value hierarchy

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

17.2 Fair value measurement of financial instruments

The carrying amounts of the group's financial assets and liabilities as stated in the interim condensed consolidated statement of financial position are as follows:

	30 June 2017 (Unaudited) KD	31 Dec. 2016 (Audited) KD	30 June 2016 (Unaudited) KD

	16,981,216	16,316,756	14,755,273

Management considers that the carrying amounts of loans and receivable and all financial liabilities, which are stated at amortised cost, approximate their fair values.

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets and liabilities measured at fair value on a recurring basis in the statement of interim condensed consolidated financial position are grouped into the fair value hierarchy as follows:

There have been no significant transfers between levels 1 and 2 during the reporting period.

Measurement at fair value

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period.

Level 3 fair value measurements

The group's financial assets and liabilities classified in Level 3 uses valuation techniques based on significant inputs that are not based on observable market data. The financial instruments within this level can be reconciled from beginning to ending balances as follows:

	30 June 2017 (Unaudited) KD	31 Dec. 2016 (Audited) KD	30 June 2016 (Unaudited) KD
Opening balance	**16,338,451**	20,902,404	20,902,404
Transfer from level 1	-	6,113,158	-
Transfer to level 2	-	(10,463,893)	-
Gains or losses recognised in:			
- Consolidated statement of profit or loss	-	(9,913)	(10,330)
- Other comprehensive income	**(8,294)**	82,945	(36,649)
Sales	**(472,322)**	(286,250)	(275,920)
Closing balance	**15,857,835**	16,338,451	20,579,505

The group's finance team performs valuations of financial items for financial reporting purposes, including Level 3 fair values, in consultation with third party valuation specialists for complex valuations, where required. Valuation techniques are selected based on the characteristics of each instrument, with the overall objective of maximising the use of market-based information.

Notes to the interim condensed consolidated financial information (continued)

17 Fair value measurement (continued)

17. 2 Fair value measurement of financial instruments (continued)

Level 3 fair value measurements (continued)
For financial instruments carried at amrotised cost, fair values are not materially different from their carrying values and are used only for disclosure purpose. Fair value of such financial instruments are classified under level 3 determined based on discounted cash flow basis, with most significant inputs being the discount rate that reflects the credit risk of counter parties.

The impact on interim condensed consolidated statement of profit or loss and interim condensed consolidated statement of profit or loss and other comprehensive income would be immaterial if the relevant risk variable used to fair value the level 3 investments were changed by 5%.
