## Report on review of interim condensed consolidated financial information

To the board of directors of  
Ikarus Petroleum Industries Company – KPSC  
Kuwait

### *Introduction*

We have reviewed the accompanying interim condensed consolidated statement of financial position of Ikarus Petroleum Industries Company (Kuwaiti Public Shareholding Company) (the “Parent Company”) and its Subsidiaries (collectively the “Group”) as of 30 June 2015 and the related interim condensed consolidated statements of profit or loss, profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

### *Scope of Review*

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity.” A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, “Interim Financial Reporting”.

### **Report on review of other legal and regulatory requirements**

Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violations of the Companies Law No. 25 of 2012 and its Executive Regulations, or of the Memorandum of Incorporation and Articles of Association of the Parent Company, as amended, have occurred during the six-month period ended 30 June 2015 that might have had a material effect on the business or financial position of the Parent Company.

#### 14.2 Fair value measurement

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments at fair value through profit or loss and available for sale investments (excluding certain available for sale investments and investment at fair value through profit or loss which are carried at cost/cost less impairment/last reported NAV for reasons specified in Note 6c and 7 respectively) are carried at fair value and measurement details are disclosed in Note 14.4 to the interim condensed consolidated financial information. In the opinion of the Group's management, the carrying amounts of all other financial assets and liabilities which are at amortised costs (see note 14.1) is considered a reasonable approximation of their fair values.

#### 14.3 Fair value hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

## Notes to the interim condensed consolidated financial information (continued)

### 14 Summary of financial assets and liabilities by category and fair value measurement (continued)

#### 14.3 Fair value hierarchy (continued)

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (that is unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

#### 14.4 Fair value measurement of financial instruments

The financial assets and liabilities measured at fair value on a recurring basis in the consolidated statement of financial position are grouped into the fair value hierarchy as follows:
