## Report on review of interim condensed consolidated financial information

To the board of directors of  
National Industries Group Holding – KPSC  
Kuwait

### *Introduction*

We have reviewed the accompanying interim condensed consolidated statement of financial position of National Industries Group Holding - KPSC (the "Parent Company") and its Subsidiaries (together the "Group") as of 30 September 2019 and the related interim condensed consolidated statements of profit or loss, statement of profit or loss and other comprehensive income, statement of changes in equity and statements cash flows for the nine-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

### *Scope of Review*

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, "Interim Financial Reporting".

### **Report on review of other legal and regulatory requirements**

Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violation of the Companies Law No. 1 of 2016 and its Executive Regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the nine-month period ended 30 September 2019 that might have had a material effect on the business or financial position of the Parent Company.

# Notes to the interim condensed consolidated financial information

## 1 Incorporation and activities

National Industries Group Holding – KPSC (“the Parent Company”) was incorporated in 1961 as a Kuwaiti shareholding company in accordance with the Commercial Companies Law in the State of Kuwait and in April 2003, its status was transformed to a ‘Holding Company’. The Parent Company along with its subsidiaries are jointly referred to as “the Group”. The Parent Company’s shares are traded on the Kuwait Stock Exchange and Dubai Financial Market.

The main objectives of the Parent Company are as follows:

- Owning stocks and shares in Kuwaiti or non-Kuwaiti shareholding companies and shares in Kuwaiti or non-Kuwaiti limited liability companies and participating in the establishment of, lending to and managing of these companies and acting as a guarantor for these companies.
- Lending money to companies in which it owns 20% or more of the capital of the borrowing company, along with acting as guarantor on behalf of these companies.
- Owning industrial equities such as patents, industrial trademarks, royalties, or any other related rights, and franchising them to other companies or using them within or outside the State of Kuwait.
- Owning real estate and moveable property to conduct its operations within the limits as stipulated by law.
- Employing excess funds available with the company by investing them in investment and real estate portfolios managed by specialised companies.

The address of the Parent Company’s registered office is PO Box 417, Safat 13005, State of Kuwait.

The Board of Directors of the Parent Company approved this interim condensed consolidated financial information for issue on 6 November 2019.

The annual consolidated financial statements for the year ended 31 December 2018 were authorised for issuance by the Parent Company’s Board of Directors on 24 March 2019 and approved by the shareholders at the Annual General Meeting held on 2 May 2019.

## 2 Basis of preparation

The interim condensed consolidated financial information of the Group for the nine-month period ended 30 September 2019 has been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting”.

The accounting policies used in the preparation of these interim condensed consolidated financial information is consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2018, except for the changes described in Note 3.

The interim condensed consolidated financial information does not include all information and disclosures required for complete consolidated financial statements prepared in accordance with the International Financial Reporting Standards. In the opinion of the Parent Company’s management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included.

Operating results for the nine-month period ended 30 September 2019 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2019. For further details, refer to the annual consolidated financial statements and its related disclosures for the year ended 31 December 2018.

## Notes to the interim condensed consolidated financial information (continued)

### 2 Basis of preparation (continued)

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim condensed consolidated financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited consolidated financial statements as at and for the year ended 31 December 2018, except for the changes arising from applying IFRS 16 as noted in 3 below. These include identification of whether a contract contains a lease, determine reasonable certainty of extension or termination of a lease, classification of leases, determining whether variable payments are in-substance fixed, establishing whether there are multiple leases in a single contract, determination of appropriate discount rate, and assessment of impairment.

### 3 Changes in accounting policies

A number of new and revised standards are effective for annual periods beginning on or after 1 January 2019 which have been adopted by the Group. Information on these new standards is presented below:

#### *IFRS 16 Leases*

IFRS 16 replaced IAS 17 and three related Interpretations. IFRS 16 introduced new and amended requirements with respect to accounting for leases. As a result, lessee accounting is now significantly different and removes distinction between finance and operating leases. It now requires recognition of a right-of-use asset and lease liability at commencement date for all leases, except for short term leases and low value leases. However, the accounting by lessor has largely remained unchanged. The new accounting policy is described below.

#### *Transition on date of initial application:*

The new Standard has been applied using the modified retrospective approach, with the cumulative effect of adopting IFRS 16 being recognised in shareholders' equity as an adjustment to the opening balance of retained earnings for the current period. Prior periods have not been restated.

For contracts in place at the date of initial application, the Group has elected to apply the definition of a lease from IAS 17 and IFRIC 4 and has not applied IFRS 16 to arrangements that were previously not identified as lease under IAS 17 and IFRIC 4.

The Group has elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of initial application of IFRS 16, being 1 January 2019. At this date, the Group has also elected to measure the right-of-use assets at an amount equal to the lease liability adjusted for any prepaid or accrued lease payments that existed at the date of transition.

Instead of performing an impairment review on the right-of-use assets at the date of initial application, the Group has relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of IFRS 16.

On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months and for leases of low-value assets the Group has applied the optional exemptions to not recognise right-of-use assets but to account for the lease expense on a straight-line basis over the remaining lease term.

The Group has benefited from the use of hindsight for determining lease term when considering options to extend and terminate leases.

## Notes to the interim condensed consolidated financial information (continued)

### 3 Changes in accounting policies (continued)

#### *IFRS 16 Leases (continued)*

##### *Impact on initial application:*

The impact on the Group as a lessee is described below:

The Group presents right-of-use assets in property, plant and equipment and lease liabilities in “accounts payable and other liabilities” in the interim condensed consolidated statement of financial position. The carrying value of right-of-use assets and lease liabilities as at 30 September 2019 amounted to KD6,104 thousand and KD5,397 thousand respectively.

Depreciation charge for right-of-use assets and amortised cost on lease liabilities for the current period amounted to KD1,347 thousand and KD528 thousand and are included in “general, administrative and other expenses” and “finance costs” respectively in the interim condensed consolidated statement of profit or loss.

There was no impact to the opening shareholders’ equity as a result of adoption of IFRS 16.

There was no impact on adoption of IFRS 16 on the Group as a lessor. The Group continues to classify and accounts for its leases as either finance leases or operating leases. However, the standard has changed and expanded the disclosures required relating management of risks arising from the Group’s residual interest in leased assets.

Under IFRS 16, an intermediate lessor accounts for the head-lease and sub-lease as two separate contracts.

#### **New accounting policy for leases**

##### *The Group as a lessee*

For any new contracts entered into on or after 1 January 2019, the Group considers whether a contract is, or contains a lease. A lease is defined as ‘a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration’.

To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assess whether it has the right to direct ‘how and for what purpose’ the asset is used throughout the period of use.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

## Notes to the interim condensed consolidated financial information (continued)

### 3 Changes in accounting policies (continued)

#### *IFRS 16 Leases (continued)*

##### *Measurement and recognition of leases as a lessee*

At lease commencement date, the Group recognises a right-of-use asset and a lease liability on the balance sheet measured as follows:

##### ***Right-of-use asset***

The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

Subsequent to initial measurement, the Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

##### ***Lease liability***

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability is reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

##### ***The Group as a lessor***

The Group enters into lease agreements as a lessor with respect to some of its investment properties. The Group classifies its leases as either operating or finance leases. When the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for the head-lease and sub-lease as two separate contacts. The sub-lease is classified as finance lease or operating lease by reference to the right-of-use of asset arising from the head-lease.

Rental income from operating leases is recognised on a straight-line basis over lease term. Initial direct cost incurred in arranging and negotiating a lease are added to the carrying amount of the lease assets and recognised on a straight-line basis over the lease term.

Amounts due under finance leases are recognised as receivables. Finance lease income is allocated to the accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding for the finance lease.

Several other amendments and interpretations apply for the first time in 2019, but do not have a material impact on the interim condensed consolidated financial information of the Group.

The Group has not early adopted any standards, interpretations or amendments that have been issued but is not yet effective.

### 4 Disposal of subsidiaries

As at 31 December 2018, one of the local subsidiaries of the Group (“the subsidiary”) held 59.1% of equity interest in Noor Al Salhiya Real Estate Co. – KSC (Closed) (“NSREC”), an indirect subsidiary of the Group. During the period, the subsidiary disposed 32.7% of equity interest in NSREC to a related party resulting in loss of control over NSREC by virtue of losing majority of the voting rights but retained significant influence over NSREC. As a result of the above disposal transaction, the Group also lost its control over certain other indirect subsidiaries, Noor CM Holding Company – KSC (Closed) (“NCM”), Ikarus Real Estate Company - LLC (“Ikarus Real Estate”), Sidra Middle East Company WLL (“Sidra”) and National Tamouh GTC Company - WLL (“Tamouh”). Consequent to loss of control over above indirect subsidiaries, the Group’s ownership in NSREC has further diluted. Accordingly, the retained interest of 16.9% in NSREC and other indirect subsidiaries have been considered as investment in associates effective from 1 January 2019.

- a) At the date of disposal, the fair values of the consideration and the carrying amounts of net assets disposed of the above mentioned subsidiaries were as follows:

	KD ‘000
Fair value of the consideration:	
- Consideration received*	3,000
- Fair value of investment property retained as a part of sale consideration**	2,890
- Fair value of retained interest in indirect subsidiaries classified as investment in associates	5,619
- Additional amounts due from associate companies recognised on deconsolidation of above indirect subsidiaries	7,812

Less: total carrying value of the net assets disposed (refer below b)	<b>(20,841)</b>
<b>Loss on disposal of indirect subsidiaries</b>	<b>(1,520)</b>

\*Cash and cash equivalents amounting to KD684 thousand (excluding consideration received) was derecognised on disposal of subsidiaries (refer below b).

\*\*As a part of the disposal transaction, the subsidiary has agreed with one of the buyers, a related party of the Group, to retain one of its existing investment properties (owned by NSREC and subsidiaries) with a carrying value of KD2,890 thousand against the consideration due.

- b) Net assets of the disposed subsidiaries as at the date of disposal were as follows;

	KD ‘000

### 10 Wakala and sukuk investments

Wakala investment of KD14,324 thousand placed by a local subsidiary of the Group in previous years with a local Islamic investment company matured in the last quarter of 2008. The investee company defaulted on settlement of these balances on the maturity date. Full provision was made for receivable in accordance with the Central Bank of Kuwait provision rules. The subsidiary initiated various legal cases against the investee company which have been decided in favour of the subsidiary. During the period, the subsidiary has signed a settlement agreement with the investee company and as per the agreement 50% shares of a local unlisted company (acquired company) have been transferred to the subsidiary. The acquired company along with other entities are pursuing legal action in order to execute their joint rights as per previous court verdict. The management of the subsidiary is of the opinion that the financial impact of this transaction will be adjusted upon completion of the relevant legal proceedings.

#### Fair value hierarchy for financial instruments measured at fair value

The following table presents the financial assets which are measured at fair value in the interim condensed consolidated statement of financial position in accordance with the fair value hierarchy.

This hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets and liabilities measured at fair value in the consolidated statement of financial position are grouped into the fair value hierarchy as follows;

#### Fair value measurements

The Group measurement of financial assets and liabilities classified in level 3 uses valuation techniques inputs that are not based on observable market data. The financial instruments within this level can be reconciled from beginning to ending balances as follows:

	30 Sept. 2019 (Unaudited) KD '000	31 Dec. 2018 (Audited) KD '000	30 Sept. 2018 (Unaudited) KD '000
Opening balance	236,471	230,310	230,310
Net change in fair value	10,356	(1,139)	7,047
Net (disposal)/additions during the period/year	(8,291)	1,720	(3,681)
Transferred from investments carried at cost to fair value	-	20,214	20,214
Reclassification	-	(14,634)	(13,411)
Closing balance	238,536	236,471	240,479

Changing inputs to the level 3 valuations to reasonably possible alternative assumption would not change significantly amounts recognised in profit or loss, total assets or total liabilities or total equity.

The methods and valuation techniques used for the purpose of measuring fair values are unchanged compared to the previous reporting year/period.
