### Report on review of interim condensed consolidated financial information

To the board of directors of National Industries Group Holding – KPSC Kuwait

### Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of National Industries Group Holding - KPSC (the "Parent Company") and its Subsidiaries (together the "Group") as of 31 March 2018 and the related interim condensed consolidated statements of profit or loss, statement of profit or loss and other comprehensive income, statement of changes in equity and statements cash flows for the three-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, "Interim Financial Reporting".

### Report on review of other legal and regulatory requirements

Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violation of the Companies Law No. 1 of 2016 and its Executive Regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the three-month period ended 31 March 2018 that might have had a material effect on the business or financial position of the Parent Company.

### 1 Incorporation and activities

National Industries Group Holding – KPSC ('the Parent Company') was incorporated in 1961 as a Kuwaiti shareholding company in accordance with the Commercial Companies Law in the State of Kuwait and in April 2003, its status was transformed to a 'Holding Company'. The Parent Company along with its subsidiaries are jointly referred to as "the Group". The Parent Company's shares are traded on the Kuwait Stock Exchange and Dubai Financial Market.

The main objectives of the Parent Company are as follows:

- Owning stocks and shares in Kuwaiti or non-Kuwaiti shareholding companies and shares in Kuwaiti or non-Kuwaiti limited liability companies and participating in the establishment of, lending to and managing of these companies and acting as a guarantor for these companies.
- Lending money to companies in which it owns 20% or more of the capital of the borrowing company, along with acting as guarantor on behalf of these companies.
- Owning industrial equities such as patents, industrial trademarks, royalties, or any other related rights, and franchising them to other companies or using them within or outside the State of Kuwait.
- Owning real estate and moveable property to conduct its operations within the limits as stipulated by law.
- Employing excess funds available with the company by investing them in investment and real estate portfolios managed by specialised companies.

The address of the Parent Company's registered office is PO Box 417, Safat 13005, State of Kuwait.

The Board of Directors of the Parent Company approved this interim condensed consolidated financial information for issue on 14 May 2018.

The annual consolidated financial statements for the year ended 31 December 2017 were authorised for issuance by the Parent Company's Board of Directors on 17 April 2018 and approved by the shareholders at the Annual General Meeting held on 10 May 2018.

### 2 Basis of preparation

The interim condensed consolidated financial information of the Group for the three-month period ended 31 March 2018 has been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting".

The Parent Company's management has decided to change the presentation of the interim condensed consolidated statement of financial position to a presentation based on liquidity (previously the interim condensed consolidated statement of financial position distinguished between current and non-current) as it provides information more relevant and appropriate of the Group's activities.

The accounting polices used in the preparation of these interim condensed consolidated financial information are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2017, except for the changes described in Note 3 arising from adoption of IFRS 9 "Financial Instruments" effective from 1 January 2018 and IFRS 15 "Revenue from Contracts with Customer" from 1 January 2018.

### 2 Basis of preparation (continued)

The interim condensed consolidated financial information does not include all information and disclosures required for complete consolidated financial statements prepared in accordance with the International Financial Reporting Standards. In the opinion of the Parent Company's management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included.

Operating results for the three-month period ended 31 March 2018 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2018. For further details, refer to the annual consolidated financial statements and its related disclosures for the year ended 31 December 2017.

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim condensed consolidated financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited consolidated financial statements as at and for the year ended 31 December 2017 other than the changes described in Note 3.

### 3 Changes in accounting policies

A number of new and revised standards are effective for annual periods beginning on or after 1 January 2018 which have been adopted by the Group. Information on these new standards is presented below:

Ī	Standard or Interpretation	Effective for annual periods beginning
	IFRS 9 Financial Instruments: Classification and Measurement	1 January 2018
	IFRS 15 Revenue from Contracts with Customers	1 January 2018
	Amendments to IFRS 7 Financial Instruments: Disclosures relating to	
	disclosures about the initial application of IFRS 9	1 January 2018

Several other amendments and interpretations apply for the first time in 2018, but do not have a material impact on the interim condensed consolidated financial information of the Group.

The Group has not early adopted any standards, interpretations or amendments that have been issued but is not yet effective.

### IFRS 9 Financial Instruments

The Group has adopted IFRS 9, Financial Instruments effective from 1 January 2018.

The IASB published IFRS 9 'Financial Instruments' (2014), representing the completion of its project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. The new standard introduces extensive changes to IAS 39's guidance on the classification and measurement of financial assets and introduces a new 'expected credit loss' model for the impairment of financial assets. IFRS 9 also provides new guidance on the application of hedge accounting.

### 3 Changes in accounting policies (continued)

### IFRS 9 Financial Instruments (continued)

The main areas of impact are as follows:

- the classification and measurement of the financial assets are based on the new criteria that considers the assets' contractual cash flows and the business model in which they are managed.
- an expected credit loss-based impairment is recognised on the trade receivables and investments in
  debt-type assets currently classified as available for sale and held-to-maturity, unless classified as at fair
  value through profit or loss in accordance with the new criteria.
- it is no longer possible to measure equity investments at cost less impairment and all such investments are instead measured at fair value. Changes in fair value are presented in profit or loss unless an irrevocable designation is made to present them in other comprehensive income.
- if the fair value option continues to be elected for certain financial liabilities, fair value movements are presented in other comprehensive income to the extent those changes relate to own credit risk.

IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income (FVOCI) and Fair value through profit or loss (FVTPL). The standard eliminates the IAS 39 categories of held to maturity, loans and receivables and available for sale.

However, gains or losses on subsequent measurement of equity type financial assets measured at FVOCI are now recognised in consolidated statement of profit or loss and other comprehensive income (presented in the "cumulative change in fair value" reserve in equity), and transferred to retained earnings on derecognition and are not recycled to consolidated statement of profit or loss. Dividend income on these assets continues to be recognised in the consolidated statement of profit or loss.

Based on the analysis of the Group's financial assets and liabilities as at 1 January 2018 and of the circumstances that existed at that date, management of the Group have determined the impact of implementation of IFRS 9 on the interim condensed consolidated financial information of the Group as follows:

### Classification and measurement:

Group holds most debt type financial assets to hold and collect the associated cash flows and, therefore, these are to continue to be accounted for at amortised cost.

Accordingly, cash and bank balances, short term deposits, Murabaha, wakala and sukuk investments, accounts receivables and other assets are all held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest. Management analysed the contractual cash flow characteristics of those instruments and concluded that they meet the criteria for amortised cost measurement under IFRS 9. Therefore, reclassification for these instruments as of 1 January 2018 is not required.

Equity investments are to be measured at FVTPL as well as FVTOCI as certain existing investments in equity instruments qualify for designation as FVTOCI category. The gains and losses on these investments are no longer be recycled to statement of profit or loss on subsequent measurement or on derecognition. Further, these investments are no longer subject to impairment test.

IFRS 9 Financial Instruments (continued)

The following table summarises the new measurement categories under IFRS 9 by class of financial asset as at 1 January 2018:

		<b>IFRS 9 Categories</b>	
	Financial assets at Fair Value Through Profit or Loss (FVTPL) KD '000	Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI) KD '000	Financial Assets at Amortised cost KD '000

There is no impact on the financial liabilities of the Group and will continue to be measured at amortised cost.

### Impairment:

The Group records expected credit losses (ECL) for debt instruments measured at amortised cost or FVOCI. ECL are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate. Under IFRS 9, the Group measures ECL as follows:

-12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and

-lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument

The Group has applied simplified approach to impairment for trade receivables as required or permitted under the standard. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group has determined that the application of IFRS 9's impairment requirements at 1 January 2018 results in an additional impairment allowances as follows:

	Provision as at 31 Dec. 2017 KD '000	Adjustments KD '000	Provision as at 1 Jan. 2018 KD '000

### IFRS 9 Financial Instruments (continued)

Summary of impact on application of IFRS 9:

As allowed by the transition provisions of IFRS 9, the Group elected not to restate comparative information for prior periods with respect to classification and measurement, and impairment requirements. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognised in the retained earnings and reserves as at 1 January 2018. Accordingly, the information presented for the comparative periods does not generally reflect the requirements of IFRS 9 but rather those of IAS 39.

The implementation of IFRS 9 has resulted in the following impact:

	Balance at 31 December 2017 as reported KD '000	Adjustments KD '000	Balance at 1 January 2018 as restated KD '000

### 3 Changes in accounting policies (continued)

### 3.1 New and amended standards adopted by the Group (continued)

### IFRS 15 Revenue from Contracts with Customers

IFRS 15 replaced IAS 18 "Revenues", IAS 11 "Construction Contract" and several revenue — related Interpretations and provides a new control-based revenue recognition model using five-step approach to all contracts with customers.

The five steps in the model are as follows:

- Identify the contract with the customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contracts
- Recognise revenue when (or as) the entity satisfies a performance obligation.

### The standard includes important guidance, such as

- Contracts involving the delivery of two or more goods or services when to account separately for the individual performance obligations in a multiple element arrangement, how to allocate the transaction price, and when to combine contracts
- Timing whether revenue is required to be recognized over time or at a single point in time
- Variable pricing and credit risk addressing how to treat arrangements with variable or contingent (e.g. performance-based) pricing, and introducing an overall constraint on revenue
- Time value when to adjust a contract price for a financing component
- Specific issues, including
  - o non-cash consideration and asset exchanges
  - o contract costs
  - o rights of return and other customer options
  - o supplier repurchase options
  - o warranties
  - o principal versus agent
  - o licencing
  - o breakage
  - o non-refundable upfront fees, and
  - o consignment and bill-and-hold arrangements.

The adoption of this standard did not have any material effect on the Group's interim condensed consolidated financial information.

### 12 Borrowings and bonds

During the years 2011 and 2012, one of the local subsidiaries of the Group restructured its financing arrangements with some local banks and accordingly loans amounting to KD154,710 thousand (out of which KD64,891 thousand has been settled till reporting date) were converted into secured long term facilities. As per loan restructuring agreements, these loans are required to be 100% secured. As of 31 March 2018, 31 December 2017 and 31 March 2017, these are partly secured (refer notes 8 and 9) and the identification and securitization of the required balance is still in process.

The third instalment of the loan of KD38,677 thousand fell due in 2014 and 2015 and the lenders agreed for payment of 50% of that amount within four months from the original due date. Accordingly, KD15,024 thousand and KD4,134 thousand were paid in the years 2015 and 2016 respectively.

The process of rescheduling of the subsidiary company's loans amounting to KD89,819 thousand as of the reporting date comprising of the remaining 50% (KD17,964 thousand of the third instalment and KD71,855 thousand for the final instalment) is ongoing. However, based on the previous agreements, the final instalment of one loan (along with the 50% of the third instalment) totalling to KD39,059 thousand fell due in September 2017 and another loan amounting to KD27,500 thousand fell due on 31 March 2018. The final instalments of the other loans totalling to KD23,260 thousand are falling due in May and September 2018.

The local subsidiary had submitted a debt rescheduling plan to all its lenders and had also requested from all of the lenders to extend the standstill as the restructuring is still in process and to continue negotiations to reach an acceptable debt rescheduling solution. As of 31 March 2018, the majority of lenders have confirmed that they will continue to negotiate the terms and conditions of the restructuring to bring it to a successful closure and management is in the discussion with the remaining lender to finalise the settlement plan. Accordingly, the local subsidiary's management expects to finalize the debt rescheduling within the next few months.

The above debt rescheduling may involve upfront settlement of part of the debts, providing collateral to financers over the Subsidiary's assets, renegotiation of pricing and repayments period of credit facilities and other terms and restrictions usually associated with such debt rescheduling process.

### 17 Financial instruments

Financial instruments comprise of financial assets (accounts receivable and other assets, murabaha, wakala and sukuk investments, investments at fair value through profit or loss, investment at fair value through other comprehensive income, short term deposits and bank balances and cash) and financial liabilities (due to banks, borrowings, bonds and accounts payable and other liabilities).

The carrying amounts of other financial assets and liabilities as at 31 March 2018, approximate their fair values.

The following table presents the financial assets which are measured at fair value in the interim condensed consolidated statement of financial position in accordance with the fair value hierarchy.

### 17 Financial instruments (continued)

### Fair value hierarchy for financial instruments measured at fair value

This hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets and liabilities measured at fair value in the consolidated statement of financial position are grouped into the fair value hierarchy as follows;

Αt	31	Mar	ch	20	18

### Fair value measurements

The Group measurement of financial assets and liabilities classified in level 3 uses valuation techniques inputs that are not based on observable market date. The financial instruments within this level can be reconciled from beginning to ending balances as follows:

Opening balance Net change in fair value recognised in other comprehensive income Impairment recognised in profit or loss Net change in fair value recognised in profit or loss Net additions during the period/year	2018 (Unaudited) KD '000 230,310 6,718	2017 (Audited) KD '000 297,135 1,618 (3,401) 805 10,500	2017 (Unaudited) KD '000 297,135 (532) (798) 150 3,725
Transferred from investments carried at cost to fair value Reclassification	20,214 (3,564)	(76,347)	1
Closing balance	256,721	230,310	299,680

Changing inputs to the level 3 valuations to reasonably possible alternative assumption would not change significantly amounts recognised in profit or loss, total assets or total liabilities or total equity.

The methods and valuation techniques used for the purpose of measuring fair values are unchanged compared to the previous reporting year/period, except for certain foreign quoted shares that have been fair valued based on certain observable market prices as the Group's management believes that such valuations are more representatives of the fair values of such investments based on the information available to the management. Accordingly, these investments with a carrying value of KD14,634 thousand has been transferred from level 3 to level 1.

### 18 Fiduciary assets
