Chairman Speech

Dear Shareholders,

I am pleased to welcome you to the 63rd Annual Ordinary General Meeting, where we present to you the consolidated financial statements and the auditor's report for the financial year ended 31 December 2022.

Markets in the region were volatile during the year, gains in the first four months of the year were offset by declines for most of the months that followed, and the oil market impacted the region's financial markets. The Russian-Ukrainian war affected the global supply chain, especially for goods, and this situation was exacerbated by the sanctions imposed on Russia that came into force during the year 2022. China's strict lockdowns had a significant impact on technology and component supply chains during the year. Global inflation and the steps taken by global central banks to raise interest rates have also affected the markets.

Locally, after closing the Bursa Kuwait Index in 2021 as one of the best performing markets in the GCC, the All Share Index wrapped up 2022 at 7,292.1 points with a minimal gain of 3.5%. The large-cap Premier Market index led the performance chart in Kuwait with gains of 6.2%. The Main Market index recorded a decline of 4.9%, while the more liquid Main 50 Index declined by 6.4%. Total market cap for the exchange reached KWD 47.1 Bn at the end of the year as compared to KWD 42.0 Bn at the end of last year, an increase of 12.3%. The recovery in GDP growth in 2022 was one of the highest in the GCC which had a positive financial impact and also boosted investor sentiment, however, the dependence on oil revenues and the fluctuation in oil prices during the year added volatility to market during the year. On the economic front, inflation remained largely under control in Kuwait that was reflected in a smaller hike in interest rate in Kuwait from 1.50% to 3.50% until the end of 2022 vs. a much larger hike by the US Federal Reserve.

Globally, equity markets posted its first decline in four years during 2022 after reaching record high levels at the end of 2021. Rising commodity prices continued to pose headwinds for companies across the globe that led to persistent high inflation and the resulting rate hikes by global central banks threatened economic growth in the near term. The MSCI World Index dropped by 19.5% during the year,

**2022****مجموعة الصناعات الوطنية القابضة
National Industries Group Holding****التقرير السنوي**
Annual Report

the biggest decline since the financial crisis in 2008, the index demonstrated weak trend since the start of the year and the Russia/Ukraine conflict further exacerbated the pace of declines. The index, however, showed partial recovery during Q4-2022 with a gain of 9.4% to partly offset consecutive declines during the first three quarters of the year.

For the year ended 31/12/2022, the Group reported a net profit of KD 21.4 million compared to a net profit of KD 78.6 million for the same period of 2021.

With the continued support and confidence of the shareholders, we pray to God Almighty to continue the positive performance of the group for the coming years.

We will present to you the Group's Annual Corporate Governance Report, which lists the efforts of the Board of Directors and the Executive Management to achieve a governance system for the group in accordance with the leading practices and in accordance with the Kuwait Capital Market Authority Law to achieve a better environment for shareholders and stakeholders of NIG. I take this opportunity to thank all board members, as well as the executive management for their high level of cooperation and sincere efforts to serve shareholders and stakeholders.

The BOD proposed a recommendation to the AGM to distribute cash dividends of 5% of the paid-up capital (representing a total amount KD 10,929,445), the BOD also proposed a recommendation of 5% bonus shares (5 shares for each 100 shares of the paid-up capital).

Finally, we pray to God Almighty to preserve the beloved Kuwait and grant it calm, tranquility, and the ability to move forward with the implementation of its development plans under the wise leadership of His Highness the Amir and His Highness the Crown Prince.

Chairman

Saad Mohammed Al Saad

Annual Performance for the Subsidiaries and Associates

First: Subsidiaries Company

National Industries Company NIC

During 2022, the company achieved a net profit of KD 4.4 million compared to a net profit of KD 4.5 million in 2021. Sales during the year 2022 amounted to 48.13 million dinars, an increase of 12% compared to 2021 of 43.05 million dinars, while investment income decreased to 683 thousand dinars in 2022 compared to 1.29 million dinars in 2021.

The most important achievements of 2022:

- Increasing the production capacity of dry mortar and cladding system products.
- The two ready-made mixing plants were transferred from Al-Zour factories for installation in Al-Mutlaa residential city with a production capacity of 240 m³ / hour with all its accessories.
- Adding new products of overlapping tiles (multi-colored wooden tiles), and rough overlapping tiles of various new sizes.

Expected during 2023:

- Increasing the production capacity of the light white brick factory to 2200 cubic meters per day.
- Creating a new system for adding colors in the limestone factory locally and programming it with the existing system.
- Study the production of chemical plant for ready-made mixing plants.
- Dismantling, transporting, and installing the Mecha 4 ready mix plant from the ready-mix plants in Abdullah Port with a capacity of 130 m³ / h and installing the project to develop the sidewalks of Shuwaikh Port.

Noor Financial Investment Company

Noor has recorded net profit of KD 19.82 million for the year ended 31 December 2022 resulting in an EPS of FILS 38.93 and a growth rate of 14.35% compared to last year annual profit. The Company Shareholders'

**2022****مجموعة الصناعات الوطنية القابضة
National Industries Group Holding****التقرير السنوي**
Annual Report

Equity was KD 85.7 million as of 31 December 2022 leading to book value per share of FILS 168. This performance was the result of total income of KD 38.8 million, an increase of 11% compared to last year.

On the operational activities side, a growth in the share of results of the associates contributed positively to the Company's results, in addition to the good performance of the IT business. The Company's subsidiaries in IT business generated a revenue of KD 12.2 million at a rate of 5% growth for the year 2022 in comparison with the previous year and a net profit of KD 603 thousand. On the other hand, the Company also had an exit from one of the Company's external investments in Jordan

Telecommunications Company at fair value through other comprehensive income, which generated cash liquidity of KD 4.86 million.

Additionally, Noor has been successful in further reducing its debts during the year by KD 3.4 million, based on its plan to balance maintaining growth and reducing debts, which provides the opportunity for the company to expand in the future. Noor board of directors also recommended to the general assembly the distribution of cash dividends for the year 2022 at 5 FILS per share.

Ikarus Petroleum Industries company

During 2022, the company was able to achieve revenues of KD 17 million resulting from profits from the sale of investments, cash dividend income, as well as profits from the purchase of companies, in addition to the total profits of industrial activities from subsidiaries. But due to the Saudi market index ending 2022 down by 7.1%, which is the first loss for the Saudi market since 2015, as the Saudi market index during the year 2022 was affected by uncertainty about the global economic recession and the repercussions of the interest rate hike in addition to oil price fluctuations, which in turn led to unrealized valuation losses amounting to KD (11.2) million as a result of the decrease in the prices of the company's investments in the Saudi market, which led to a decrease in the company's net profit to approximately KD 167 thousand compared to KD 35 million last year.

During the past years, the company has continued its capital structure plan, as it reduced the capital by 10% from the results of 2019 and was paid to the shareholders during 2020, and the company also paid a cash dividend of 5% for the year 2021 and reduced the capital by 17% and returned it to the shareholders of the company during the year 2022 to reach the capital of KD 50 million as planned.

The subsidiary in Saudi Arabia continued to achieve total revenues exceeding SAR 90 million and an increase in the company's total assets to reach SAR 384 million due to the unprecedented rise in product prices and also the near completion of the expansion project, which will contribute to doubling the amount of the company's products available for sale and will also introduce new products, which in turn will contribute to increasing sales and improving returns.

Al Durra National Real-estate company

- During the year 2022, Dara Al Rayyan Hotel (51 Flats) was opened in Riyadh, one of the company's projects, and the occupancy rate for the first year reached 75%.
- Al Durra sold one of its Investment property Salwa Complex with a profit of KWD 1.3 million.
- During the year Durra purchased new land in Shuwaikh 2,000 Sq meter for development within 2 years & to be built as Storage / Refrigeration Co.
- All our Residential Building Reached 90% occupancy during the year 2022.

Combined National Industries Holding Co. for Energy

Combined National Industries Holding Co. for Energy is currently reviewing several opportunities in the energy and Infrastructure sectors in cooperation with the parent company and its subsidiaries and associates.

And, with respect to the Company's investment in Karachi Electric, the sale transaction is still on-going, awaiting to finalize the deal as soon as possible.

Proclad Group

During the year, Proclad has put a lot of focus on R&D team resource to focus on newer technologies with automation being the keyword to reduce the reliance on manpower, improve efficiencies, quicker deliveries thus improving our profit margins.

The management continued to monitor the ongoing developments in the industry and to mitigate the risks associated by implementing cost cutting measures, improving efficiencies etc to counter the perceived impacts of the Russia/Ukraine conflict and to further protect and realign the cost structure where possible.

Proclad Group has an established history of meeting its customers' changing needs and expectations and this has been a key to Proclad success over the years which separate Proclad from the others.

Second: Associate Companies

Kuwait cement company

- After signing a memorandum with Kuwait Municipality in 2021 with the aim of disposing of municipal solid waste in a safe and sustainable manner by re-converting it into an environmental fuel product to be used in the cement industry, environmental approval and other approvals for the project were obtained during 2022, and now the company is in the process of signing an investment contract for this project with the State Property Contracts Department at the Ministry of Finance for a period of 20 years.
- The company continued its efforts to maintain its sales volume of ordinary and sulfate-resistant Portland cement and oil well cement and succeeded in achieving an increase in sales by 47.5% compared to 2021.

Kuwait Cement Ready mix Company (a subsidiary) managed to acquire a substantial share of the supply of ready-mixed concrete for residential plots in Mutlaa City, which lead to an increase in its sales by 15% compared to 2021.

**2022****مجموعة الصناعات الوطنية القابضة
National Industries Group Holding****التقرير السنوي**
Annual Report

Privatization Holding Company (PHC)

PHC continued its selective divestiture / exit strategy from certain investee companies to enhance liquidity and mitigate certain investee risks. With respect to the investment activity during 2022, due to the Covid crisis, management has decided to focus on our existing investments and developing and implementing favorable exit strategies for the benefit of the Company.

In 2022, PHC continued the investment in Jaber Al Ahmed-J3 project as it is a large project with huge commitment. This project has taken a significant portion of PHC's investment and effort.

The total investments of PHC as of December 31, 2022 were estimated at KD 69.7 million, and the value of direct investments as of December 31, 2022 was amounted to KD 65 million. The company's key project is:

Jaber Al Ahmed Cities- J3

The Financial close for the project was achieved on 15th December 2021. The land for the construction was received from Public Authority for Housing Welfare. The EPC Contract has been executed on October 12, 2021, and the Notice to Proceed was issued on November 4, 2021. Planned Completion Date of Scheduled Commercial Operation Milestone is 3rd August 2025.

Managing the Board meetings

The Secretary of the Board was selected from within NIG, by appointing Mr. Mohamed Rashed Al Mutairi as board Secretary. The Board Secretary has the required qualifications that assist him to complete the tasks and responsibilities entrusted to him by the Board of Directors. The board secretary is responsible for the following:

- Recording and preserving all board meeting minutes, records, notebooks and reports submitted to and from the board, provided that meeting minutes are signed by him and all the members present.
- Ensure that the members of the Board of Directors follow the procedures approved by the Board, and that the dates of the Board meetings are communicated three working days in advance, considering the emergency meetings.
- Preparing information packages that need to be circulated to the members of the Board in its meetings or to the shareholders in the meetings of the General Assembly.
- Documenting and following up on issues that require the Board to take specific actions that are raised in subsequent Board meetings and record them in the relevant procedures form.

Acknowledgment by the independent member that he fulfills the conditions for his independence.

Rule II: Establish Appropriate Roles and Responsibilities

- The Board derives its empowerment and legality from its memorandum and the articles of association that allows the Board of Directors to manage the company, where the Board determines the level of authority and responsibility given to the Executive Management to run the daily operation. Moreover, the Board also has full authority and rights to perform all actions on behalf of the Company and to participate in all activities and exercise all the authorities that deemed necessary for achieving its objectives, those authorities and procedures are explicitly provided in the commercial companies' law issued by the ministry of commerce, and the company's article of association, and the CMA Bylaws and regulations.
- The authorities and responsibilities of the Board of Directors and executive management are clearly identified in the approved policies, procedures, and charters, where it clearly indicates that no party is allowed an absolute power, to facilitate the accountability of the Board of directors by company's shareholders. The Board of directors holds liable for all the ultimate responsibility managing the company even by forming committees or delegating other individuals or entities authorized to perform work on behalf of the board. The board of directors should avoid issuing general warrants or for indefinite duration. The Board approved and adopted a set of authorities and responsibilities include the charters of each of:
 - Chairman of the Board
 - Members of the Board of Directors
 - The CEO and his deputies

The Board achievements in 2022

During the year 2022, the Board took several decisions in many topics regarding the company, as it approved the increase of the authorized capital from KD 149.9 million to KD 300 million. On 30 January 2022, the Board of Directors of National Industries Group approved the increase of the issued and paid-up capital from KD 149.9 million to KD 202.4 million through the issuance of 524,733,305 shares at a value of 100 fils per share in addition to 100 fils per share as a premium share. The rights issue was fully subscribed with an oversubscription of 348%. The Group also successfully issued KD 40 million unsecured bonds with a maturity of five years, as the issuance reflected investors' confidence in the high credit efficiency of the National Industries Group.

Formation of a specialized committees to promote independence

The Board has formed specialized committees with the aim of enabling it to perform its tasks effectively, according to the company's requirements, conditions and nature of its work, the company's desire to fully implement the requirements of governance, as the executive management has prepared a set of charters in cooperation with specialized expertise consultants in this field to reach the best market practice. The Board of Directors formed the Risk Committee, the Audit Committee, the Nomination & Remuneration Committee, according to the approval of the Capital Markets Authority. The Board of Directors reviewed all the regulations, work systems, and charters for all committees.

Composition of the Audit Committee

The Audit Committee was formed for three years on 6/6/2022.

A brief overview of the requirements for forming the Nomination and Remuneration Committee

- Number of its members 3.
- At least one of its members is an independent member (Mr. Muhammad Abdul-Mohsen Al-Asfour).
- Its membership was not occupied by the Chairman of the Board of Directors or the members of the Executive Board of Directors.
- The Chairman of the Committee is a non-executive board member.
- The Board of Directors set the term of membership of the committee for a period of three years from the date of its formation and the method of its work within the committees' work charters.
- The Nomination and Remuneration Committee met once a year.

Board membership, and executive management remuneration

The Group considers the remuneration policy to be an essential element in creating value for the Group as well as for its stakeholders. While the remuneration of each member of the Board of Directors is subject to experience, qualification, expected contribution from the individual and his performance, the guiding principles of governance issued by the Capital Markets Authority are as follows:

- Rewards must be consistent with the group's strategy and objectives, either in the long or short term.
- Rewards must be commensurate with the size and nature of the group and the risks to which it is exposed.
- The total estimated remuneration may not exceed 10% of the net profits (after deducting depreciation, reserves, and distributing profits with no less than 5% of the capital or any higher percentage stipulated in the group's articles of incorporation). It is allowed to distribute annual bonuses that do not exceed the amount of KD6,000 for the Chairman of the Board of Directors and each member of the Board from the date of the establishment of the group until the achievement of profits that allow the group to distribute rewards in accordance with the criteria mentioned above.
- The general assembly of the group has the right to exempt the independent board member from the maximum mentioned remuneration.
- Linking the rewards (in total or individually) to the group's healthy operations and financial position.

The remuneration structure and policy shall be prepared by the Nomination and Remuneration Committee. The Nomination and Remuneration Committee shall ensure compliance with the above criteria when recommending remuneration for members of the Board of Directors and senior management.

Executive Management Remuneration Policy

- The Nominations and Remunerations Committee is responsible for setting the remuneration policy for the Group's executive management, and its objective is to achieve a balance between competitive rewards in the market to retain talent, and develop current and future shareholder returns.
- The Nominations and Remunerations Committee works to take advantage of analytical tools, qualitative and quantitative procedures, and comparative studies provided by experts in the process of formulating remuneration offers and incentive programs for the management of the executive group, including annual performance bonuses and short and long-term incentives.
- In addition, the group has a system for monitoring and evaluating the performance of the executive management and employees of the group.
- There is a fair and transparent system for measuring responsibilities and performance that is used to reward the group's employees for their achievements during the year. The responsibility for managing the performance of employees lies with the executive management (represented in the human resources department) under the supervision of the CEO.
- The Nominations and Remunerations Committee reviews the periodic evaluation of the remuneration paid to the executive management and ensures that there are no fundamental deviations from the remuneration policy approved by the Board of Directors.

During the year 2022, the Nominations and Remuneration Committee recommended an amount of KD 480 thousand as remuneration for the members of the Board of Directors for the year ending on 31/12/2022, which is subject to the approval of the shareholders during the meeting of the General Assembly.

The following table shows the remuneration allocated to the members of the Board of Directors:

Remunerations and benefits for board members							
Rewards and benefits through subsidiaries				Rewards and benefits through the parent company			Total number of members

Note: There are no fundamental deviations from the remuneration policy approved by the Board of Directors.

Rule IV: Safeguard the Integrity of Financial Reporting

The safeguard and integrity of the company's financial statements is considered an important indicators on the integrity and credibility of the company in revealing its financial position, therefore increases investor confidence in the data and information provided by the company, and allows the shareholders to exercise their rights, the company is keen on the integrity of the financial statements and that financial statements of the company are being audited under the supervision of the audit committee, and ensure the independence and integrity of the external auditor.

The Executive management issue a covenant in writing to the Board of Directors, depicting that the company's financial statements are displayed properly and fairly, and it reveals all aspects of the company's financial and operating results, and the financial statements are prepared in accordance with international accounting standards. The annual report provided to the company's shareholders a written covenant of the integrity of all financial statements.

Brief on the implementation of the requirements for the formation of the audit committee

- The number of its members is 4.
- At least one of its members is an independent member (Mr. Muhammad Abdul-Mohsen Al-Asfour).
- Its membership was not occupied by the Chairman of the Board of Directors or the members of the Executive Board of Directors.
- Among the members of the committee there is at least one member with academic qualifications and/or practical experience in the accounting and financial fields.
- The Board of Directors set the term of membership of the committee for a period of three years from the date of its formation and the method of work within the committees' work charters.
- The Audit Committee regularly met 7 times during the year and on a quarterly basis.

**2022****مجموعة الصناعات الوطنية القابضة
National Industries Group Holding****التقرير السنوي**
Annual Report

- Regular meetings were held with the external auditors, and at least four times with the internal auditor.
- The performance of the external and internal auditors was evaluated.

There was no conflict between the recommendations of the audit committee and the decisions of the board of directors.

Independence and Fairness of the External Auditor.

The AGM shall appoint the external auditor based on the Board of Directors recommendation. The nomination of the external auditor ultimately is based on the recommendation of the audit committee to the BOD. The company has dual independent external accounts that are registered with the CMA, and they comply with all CMA's regulations and stipulations. It is not allowed for the independent external auditor of the Company to perform any additional work that appear to have conflict or may affect his independence and integrity.

There is an independent office for auditing, where the Al-Bazie Office - RSM provides the internal audit service to the group annually, and the responsible partner appointed by Al-Bazie Company submits the internal audit reports to the Audit Committee, where the committee discusses all the reports submitted to it and considers the following:

1. Reporting to Audit Committee and then to Board of Directors.
2. The internal audit unit be appointed by the Board of Directors and based on the nomination of the audit committee.
3. That the Board of Directors define the duties and responsibilities of the internal audit office.

Rule V: Develop A Proper System of Risk Management and Internal Control

A brief statement on the implementation of the requirements for forming an independent risk management department

The company has a separate department of risk management that work primarily on assessing, monitoring, and mitigating of all types of risks that are facing the company, aligned with an effective regulations and procedures for managing those risks. This is an ongoing process, and is reviewed periodically, and the policies and procedures are modified as required.

An overview of the implementation of the requirements for forming a risk management committee

- The number of its members is 4.
- Its chairman is a non-executive board member, and the chairman is not a member of this committee.
- Presenting periodic reports on the nature of the risks that the company is exposed to and submitting these reports to the company's board of directors.
- The Board of Directors set the term of membership of the committee for a period of three years from the date of its formation and the method of its work within the committees' work charters.
- The Risk Committee met 4 times during the year on a regular basis.

Internal control systems

Internal control is a comprehensive system extending to administrative control, accounting and internal audit. It is a set of tools and procedures followed within the company to achieve specific goals. The internal audit unit is aiming to assure the integrity of the financial information, safeguarding of assets, and shareholders and stakeholders' interests.

Internal audit and risk management units are working properly and independently according to the relevant regulatory requirements. Audit committee is responsible for assisting the BOD in overseeing the quality and integrity of the accounting information, the independence of the auditing, and having sound internal control and financial reporting practices. Audit committee is responsible for the contracting with an independent firm for conducting the annual Internal Control Review (ICR) which was prepared by Qais Al-Nisf and Partners (BDO). The objective is the independent evaluation of the internal control systems, and its adequacy within the company, and preparing report that contains weaknesses and recommendations directed to the audit committee.

خطاب الرأي

السادة أعضاء مجلس الإدارة المحترمين
مجموعة الصناعات الوطنية ش.م.ل.ع.
دولة الكويت

23 فبراير 2023

تحية طيبة وبعد،

تقرير حول تقييم ومراجعة نظم الرقابة الداخلية

وفقا لخطاب تعييننا المؤرخ في 5 يناير 2023، قمنا بفحص، ومراجعة أنظمة الرقابة الداخلية للشركة مجموعة الصناعات الوطنية ش.م.ل.ع. للسنة المنتهية في 31 ديسمبر 2022. وقد شمل الفحص كافة الإدارات والوظائف بالشركة، وهي كما يلي:

- الحوكمة
- بيئة الرقابة العامة
- التدقيق الداخلي
- المخاطر والالتزام
- الموارد البشرية والشؤون الإدارية
- إدارة المالية
- الإدارة المالية
- شؤون المساهمين
- الاستثمارات الأجنبية
- الاستثمارات المؤقتة
- الاستثمارات المالية
- تقنية المعلومات

لقد قمنا بفحصنا وفقا لمشتريات اللجنة التنفيذية لهيئة أسواق المال (الكتاب الخامس عشر "حوكمة الشركات" مادة 9-6).

وبمستكم أعضاء مجلس إدارة الشركة ففهم مسؤولون عن إرساء نظم للرقابة الداخلية مع الأخذ في الاعتبار الشائع المتوقعة والتكاليف المتعلقة بتأسيس تلك الأنظمة والالتزام بمشتريات هيئة أسواق المال المذكورة في الفقرة أعلاه إن الهدف من التقرير هو إعطاء توكيدات معقولة وأبسط قطعة عن مدى فعالية الإجراءات والأنظمة المتبعة بفرض حماية الموجودات ضد أية خسائر ناجمة عن أي استخدام أو تصرف غير مصرح به، وأن المخاطر الرئيسية يتم مراقبتها وتقييمها بشكل مناسب، وأن المعاملات يتم تنفيذها طبقا لإجراءات التوكيد المقررة وأنه يتم تسجيلها بشكل صحيح، حتى يسمح ذلك بإعداد البيانات المالية وفقا للمعيار الدولي للتقارير المالية الصادرة عن مجلس معايير المحاسبة الدولية.

ونظرا لخواص الفحص في أي نظام من أنظمة الرقابة الداخلية، قد تحدث أخطاء أو مخلفات ولا يتم اكتشافها. إضافة إلى ذلك فإن توقع التقييم للأنظمة في الفترات المستقبلية يخضع لخطر أن تصبح الإجراءات الرقابة غير ملائمة بسبب التغييرات في الظروف، أو أن تقل درجة الالتزام بتلك الإجراءات.

مع الاستنادات لأجور الموضوعية في التقرير المرفق، ونظرا لطبيعة وحجم عمليات الشركة، خلال السنة المنتهية في 31 ديسمبر 2022، وأهمية وتقييم المخاطر لملاحظاتنا في رأينا:

أ. أنظمة الرقابة الداخلية للشركة قد تم إنشاؤها والاحتفاظ بها طبقا لمشتريات هيئة أسواق المال وقواعد حوكمة للشركات.

A brief statement on the implementation of the requirements for the formation of an independent department / office / unit for internal audit

- The internal audit function has been assigned to RSM - Al-Bazie & Partners, which is a completely independent internal auditor.
- The appointment of the internal audit office was completed by the Board of Directors and based on the nomination of the audit committee.
- The internal audit office prepared a report that includes a review and evaluation of the internal control systems.
- The internal audit office evaluated the performance of the executive management in applying internal control systems.
- An independent auditing office (BDO) has been assigned to carry out an evaluation and review of internal control systems and to prepare a report in this regard (Internal Control Report), which has been provided to CMA annually.

**2022**مجموعة الصناعات الوطنية القابضة
National Industries Group Holdingالتقرير السنوي
Annual Report**Rule VI: Promote Code of Conduct and Ethical Standards****A summary of the business charter that includes standards and determinants of professional conduct and ethical values**

Establishing a culture of professional behavior and ethical values within the company enhances the investors' confidence in the integrity of the company and the safety of its financial information, as the commitment of all company employees, whether members of the board of directors, executive management, or other workers to the company's internal policies and regulations, as well as legal and supervisory requirements, will benefit all shareholders. And the relevant parties, without conflict of interest and with a large degree of transparency. Therefore, the executive management drafted a work charter that includes standards and determinants of professional behavior and ethical values.

The company has a code of conduct for each of the members of the board of directors and another for executives and managers that includes standards and determinants of professional behavior and ethical values, which deal with establishing the principle of commitment of each member of the board, executives, managers and employees to fully adhere to all laws and instructions, and to represent all shareholders, and to adhere to what is in the interest of The company, the interest of shareholders, and the interest of other stakeholders, not just the interest of a specific group.

Summary of policies and mechanisms for limiting conflict of interest

The company has developed a conflict of interest policy in line with the CMA regulations and the provisions of Kuwait Commercial Companies Law. This policy includes requirements and parameters that should be followed by the Board member, it determines that the board member should not be bound to enter into contracts or businesses arrangement with the company. The board member should inform the BOD if he has a personal interest whether directly or indirectly, in the agreements or contracts that is being made with the company and should be disclosed in the disclosure log. The board member with personal interest should not vote on any resolutions regarding that matter, the chairman should inform the AGM of such conflict of interest.

**Rule VII: Ensure Timely and High-Quality Disclosure and Transparency****Mechanisms for timely disclosure and transparency.**

The Board is obliged to develop mechanisms for a quality, and transparent disclosure to be in line with the relevant laws and regulations issued by the company's law or CMA regarding that matter. Those disclosures are classified into either a company's disclosure or BOD and executive management disclosures, where the disclosures log should be updated regularly.

The company's disclosure is approved by the BOD and should disclose the financial data and information regarding the financial position, performance, ownership for all stakeholders through the proper panels, that assist the shareholders to understand their position fully, those proper panels are reviewed and updated regularly to be in line with the best practices, and CMA code of Corporate Governance.

A summary of the application of the requirements of the disclosure record of the members of the Board of Directors and the executive management

Disclosures of board members and executive management are updated regularly in a register, that register is made available for shareholders of the company, without any fee or charge, the company is also committed to update this log data periodically to reflect the true situation of the related involved.

 - Electing board members.
 - Monitor the company's performance of and the activities of the board.
 - Questioning the members of the company's board of directors or the executive management and filing a liability claim in case they fail to perform the tasks entrusted to them.

**2022****مجموعة الصناعات الوطنية القابضة
National Industries Group Holding****التقرير السنوي**
Annual Report

A summary of the creation of a special register to be kept with a clearing agency, as part of the requirements for continuous monitoring of shareholder data

- The company has a contract with the Kuwait clearing company (KCC), where KCC creates a registry contains the investor name, nationality, residence, and the number of shares owned by each of them, any investor may request the KCC to provide the data from this register.
- The company has an investor's affairs unit where this unit is maintaining a shareholders register that is updated by any changes for the ownership percentages, or adding new shareholders, or deletion of shareholders. Any shareholder may request this unit to provide the data from this register.
- The managers of subscription for shares or bonds shall maintain a special register in which the names of bond or sukuk holders, their nationalities and domiciles, the number and type of bonds or sukuk owned by each of them are recorded, and any changes that occur to the financial data registered therein according to what the company receives.
- The shareholders have the right in the company to view the shareholders' register, and that the data contained in the register are dealt with according to the highest degree of protection and confidentiality, in a manner that does not contradict the law and the executive regulations, and the instructions and regulatory controls issued by the Authority.

A summary of how to encourage shareholders to participate and vote in the meetings of the company's assemblies

The BOD invites the shareholders to the meet electronically within the three months that follow the end of the financial year, the time and the place is to be determined according to the company's bylaws. The BOD may invite this AGM to meet whenever necessary. The Board should also invite the AGM at a reasoned request of several shareholders owning at least 10% of the Company's paid up capital, or at the request of the Auditor, within fifteen days from the date of the request.

The agenda of the AGM should include as a minimum the following:

- Reading the Corporate Governance report and the audit committee report.
- Discussion of the board report related to company's activity and financial position and outcomes of works thereof.
- Discussing the report of the external auditor on the results of the company's financial statements, approving the same, and the approval of the dividable net profit.
- Presenting the details with the related parties.
- Presenting any breaches monitored by the regulatory bodies, and any penalties issued due to such breaches and led to (financial/non-financial) penalties against the company.
- The approval of the general assembly for the purchase and sale transactions or dispose of in any way the company's assets if the transactions or actions are 50% or more of the total amount of the company' assets.

**Rule IX: Recognize the Roles of Stakeholders****An overview of the systems and policies that guarantee protection and recognition of the rights of stakeholders**

The company's board of directors and the executive management are obligated to protect the rights of stakeholders as part of the governance framework. The policy of protecting stakeholders has been developed with the purpose of ensuring respect for the rights of stakeholders. The company's board of directors is responsible for setting standards for protecting the rights of all stakeholders and updating them whenever appropriate, in addition, the company has systems or policies that guarantee protection and recognition of the rights of stakeholders, it includes dealing with members of the board of directors and related parties with the same conditions that the company applies with different stakeholders, without any discrimination or preferential conditions. Detailed policies explaining the procedures that will be followed in case any of the parties breach their obligations and confirming that the contracts concluded between the stakeholders and the company include and explain in detail those procedures.

An overview of how to encourage stakeholders to participate in monitoring the company's various activities.

The company provides stakeholders with access to information and data related to their activities, so that they can be relied upon in a timely and regular basis. The company also puts in place mechanisms to facilitate for stakeholders to report to the company's board of directors of any improper practices they are exposed to by the company, while providing appropriate protection to the parties that report. The Risk Department shall investigate it upon receipt, while ensuring that the whistleblower is protected from these practices whistleblower@nig.com.kw.

**RULE X: ENCOURAGE AND ENHANCE PERFORMANCE****A summary of the implementation of the requirements for establishing mechanisms that allow the members of the Board of Directors and the executive management to receive continuous training programs and courses.**

The company attaches importance to continuous training, development and attention to the training aspects of both members of the board of directors and executive management, by setting induction programs for newly appointed members in order to ensure that they have an appropriate understanding of the company's workflow and operations, and these programs are represented in the company's strategy and objectives, the financial and operational aspects of all The company's activities, the legal and supervisory obligations of the members of the Board of Directors and the company.

The company also believes that the continuous training and qualification of the members of both the Board of Directors and the executive management provides the members of the Board of Directors and the executive management with the appropriate understanding and knowledge of all topics related to the company's activities, and makes them aware of the latest developments in the related administrative, financial and economic fields, in addition to the ability to strategic planning according to The needs of the company and then achieve the goals of the company.

Training courses were provided during the year for members of the Board of Directors and the Executive Management by specialized external bodies to raise the technical level and familiarity with all developments related to the laws of good governance.

National Industries Group Holding****التقرير السنوي**
Annual Report

An overview of how to evaluate the performance of the board of directors as a whole, and the performance of each member of the board of directors and the executive management

The Remuneration and Nomination Committee evaluates the performance of each member of the Board of Directors and the executive management periodically, by developing a set of performance measurement indicators related to the extent to which the strategic objectives of the company are achieved and the positive performance of the company. The committee evaluated each member of the board of directors during the year, and the board of directors as a whole was evaluated as well as all the committees emanating from it, and the periodic evaluation of the board reflects the commitment to practical evaluation of the efficiency and effectiveness of the board and improving the performance of the board and its supervisory role, and assuming its responsibilities, under the supervision of the chairman Management and through the Nomination and Remuneration Committee, work to identify strengths and weaknesses and review members' training and development needs based on the evaluation results.

The committee also evaluated the performance of the executive management according to the established performance indicators (KPIs) for each party.

An overview of the efforts of the Board of Directors to create institutional value creation among the company's employees, through achieving strategic goals and improving performance outcomes.

The Board works constantly to create the corporate values through achieving strategic goals and enhancing performance by accomplishing the following responsibilities:

- Approve the strategic direction of the company and its vision and mission.
- Review and approve the company's business plans, policies, and charters.
- Determining the optimal capital structure for the company and its financial objectives.
- Adopting a clear policy for distributing profits of all kinds, in cash or in kind, in a manner that serves the interests of the shareholders.
- Approving performance targets and monitoring implementation and overall performance in the company.
- Approving the organizational and functional structures of the company and the procedures for periodic review.
- Ensuring the company's compliance with the policies and procedures that ensure that the company respects the applicable internal rules and regulations.
- Approving and developing internal regulations and systems related to the company's work and ensuring that they are transparent and clear.

Rule XI: Focus on the Importance of Corporate Social Responsibility

A summary of the development of a policy to ensure a balance between the goals of the company and the goals of the society

The company is keen to develop its societal development and strategy with the social, economic, and environmental needs and utility results to the community and the company, the Board confirms its attachment to the importance of social responsibility to reduce the harmful effects to society and the environment and the development of good effects.

An overview of the programs and mechanisms used that help highlight the company's efforts in the field of social work.

Within the framework of the company's social responsibility in serving the country, the National Industries Group Holding has done the following for the sake of community development:

1. Supporting many social activities and humanitarian initiatives related to special needs and autism.
2. Continuing to support «Al-Mabarrah» to carry out national charitable activities called «Al-Mabarrah National Industries Group», and the Board of Directors of the company has given it great confidence and provided great moral and material support to it, allocating an independent headquarters for it, which provided the element of stability in the work of Al-Mabarrah and supported its productivity and contributed to holding its meetings regularly. Therefore, despite its recent inception - since 2007 - the National Industries Group has been able to support many diverse national charitable projects that consolidate belonging to the homeland and help needy citizens and expatriates, whether at the educational, health, social, economic or other levels. Among the activities supported by Al-Mabarrah during 2022:
 - Islamic Economics Postgraduate Scholarship Students,
 - Project Mabarrah National Industries School Project in Hadramout,
 - Project of finishing and equipping the basement of Mabarrah National Industries School National Industries Foundation,
 - Project to Support the Education of Orphan Students,
 - Completion of the construction of an orphanage in Urfa (southern Turkey) for displaced Syrian orphans,
 - Preachers Sponsorship Project,
 - A project that taught me Islam,
 - "Their homes are more beautiful" project for six needy families in Kuwait.

Independent auditor's report

To the shareholders of

National Industries Group Holding – KPSC

Kuwait

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of National Industries Group Holding – Kuwaiti Public Shareholding Company (the “Parent Company”) and Subsidiaries, (collectively the “Group”), which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2022, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code), and we have fulfilled our ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below as the key audit matters.

Valuation of financial assets measured at fair value

The Group's financial assets measured at fair value at the reporting date represent 40% of total assets. These assets are either classified as financial assets at fair value through profit or loss or as financial assets at fair value through other comprehensive income. The valuation of these financial assets is performed using a fair value hierarchy:

- Level 1 are valuations based on quoted prices (unadjusted) in active markets;
- Level 2 are valuations based on other than quoted prices included within level 1, that are observable either directly or indirectly; and,
- Level 3 are valuations based on unobservable inputs for the asset.

Independent Auditor's Report to the Shareholders of National Industries Group Holding – KPSC (continued)

The valuation of these financial assets is inherently subjective - most predominantly for the level 2 and level 3 financial assets since these are valued using inputs other than quoted prices in an active market. These valuations were derived from the application of different valuation methods including relative valuation method, adjusted net asset value and discounted cash flows. The key inputs used in the valuation of individual level 2 and level 3 financial assets are market multiples, illiquidity discount, expected cash flows, risk free rates and credit spreads. Given the inherent subjectivity in the valuation of level 2 and level 3 financial assets, we determined this to be a key audit matter.

Independent Auditor's Report to the Shareholders of National Industries Group Holding – KPSC (continued)

Key Audit Matters (continued)

Valuation of financial assets measured at fair value (continued)

Our audit procedures comprised, amongst others of an assessment of the methodology and the appropriateness of the valuation models and inputs used to value these financial assets, including agreeing the carrying value of the investments to the internal and external valuations. Further, we challenged the valuation of these financial assets, and assessed whether the valuations performed by the Group were within a pre-defined tolerable differences threshold. As part of these audit procedures we assessed the accuracy of key inputs used in the valuation such as the expected cash flows and risk-free rates by benchmarking them with external data. Finally, we assessed the completeness and accuracy of the disclosures relating to these financial assets to assess compliance with disclosure requirements included in IFRS. Refer Notes 5, 6, 18, 19 and 34 to the consolidated financial statements for more information on fair valuation of financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income.

Impairment of investment in associates

The Group's investment in associates at the reporting date represents 26% of the total assets and are accounted for under the equity method of accounting and are considered for impairment in case of indication of impairment. Under the equity method of accounting for associates, these investments are initially stated at cost, and are adjusted thereafter for the post-acquisition change in the share of the net assets of the associates less any impairment. Market value of some investment in associates has been below their respective carrying amounts for a sustained period, and therefore their current carrying amount continues to rely on the Group's significant judgement in determining their recoverable amount based on their value-in-use. The projected future cash flows and discount rates used by the Group in determining value-in-use are subject to estimation uncertainty and sensitivity. Therefore, we consider this a key audit matter.

Our audit procedures included, among others, evaluating management's consideration of the impairment indicators, the assessment of the Group's methodology and calculation of value-in-use. For associates where there were impairment indicators, we evaluated the reasonableness of cash flow projections against most recent financial performance and considered the appropriateness of key inputs such as long-term growth rates used to extrapolate these cash flows and the discount rate. Additionally, we considered whether the Group's disclosures of the application of judgement in estimating the recoverable amount and the sensitivity of the results of those estimates adequately reflect the risks associated with impairment of investment in associates. Refer Notes 5, 6 and 21 to the consolidated financial statements for more information on investment in associates.

National Industries Group Holding****التقرير السنوي
Annual Report**

Independent Auditor's Report to the Shareholders of National Industries Group Holding – KPSC (continued)

Other information included in the Group's 2022 annual report

Management is responsible for the other information. Other information consists of the information included in the Annual Report of the Group for the year ended 31 December 2022 other than the consolidated financial statements and our auditor's report thereon. We obtained the report of the Parent Company's Board of Directors, prior to the date of our auditor's report and we expect to obtain the remaining sections of the Group's Annual Report for the year ended 31 December 2022 after the date of our auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the audit or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we have obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditor's Report to the Shareholders of National Industries Group Holding – KPSC (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Furthermore, in our opinion, proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated

financial statements incorporate all information that is required by the Companies Law No. 1 of 2016 and its Executive Regulations, as amended, and by the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law, the Executive Regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the year ended 31 December 2022 that might have had a material effect on the business or financial position of the Parent Company.

We further report that, to the best of our knowledge and belief, no violations of provisions of the Law No. 7 of 2010 regarding Capital Markets Authority ("CMA") and its relevant regulations have occurred during the year ended 31 December 2022 that might have had a material effect on the business or financial position of the Parent Company.

**2022****مجموعة الصناعات الوطنية القابضة
National Industries Group Holding****التقرير السنوي**
Annual Report

Notes to the consolidated financial statements

1 Incorporation and activities

National Industries Group Holding – KPSC (“the Parent Company”) was incorporated in 1961 as a Kuwaiti shareholding company in accordance with the Commercial Companies Law in the State of Kuwait and, in April 2003, its legal status was changed to a “Holding Company”. The Parent Company along with its subsidiaries are jointly referred to as “the Group”. The Parent Company’s shares are traded on the Kuwait Stock Exchange and Dubai Financial Market.

The main objectives of the Parent Company are as follows:

- Owning stocks and shares in Kuwaiti or non-Kuwaiti shareholding companies and shares in Kuwaiti or non-Kuwaiti limited liability companies and participating in the establishment of, lending to and managing of these companies and acting as a guarantor for these companies
- Lending money to companies in which it owns 20% or more of the capital of the borrowing company, along with acting as guarantor on behalf of these companies
- Owning industrial equities such as patents, industrial trademarks, royalties, or any other related rights, and franchising them to other companies or using them within or outside the State of Kuwait
- Owning real estate and moveable property to conduct its operations within the limits as stipulated by law
- Employing excess funds available by investing them in investment and real estate portfolios managed by specialised companies

The address of the Parent Company’s registered office is PO Box 417, Safat 13005, State of Kuwait.

The Board of Directors of the Parent Company approved these consolidated financial statements for issuance on 13 March 2023. The general assembly of the Parent Company’s shareholders has the power to amend these consolidated financial statements after issuance.

2 Basis of preparation

The consolidated financial statements of the Group have been prepared under historical cost convention except for financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and investment properties that have been measured at fair value.

The consolidated financial statements are presented in Kuwaiti Dinars (“KD”) and all amounts are rounded to the nearest thousand (KD ‘000), except when otherwise indicated.

The Group has elected to present the “statement of comprehensive income” in two statements: the “statement of profit or loss” and a “statement of profit or loss and other comprehensive income”.

3 Statement of compliance

These consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards (“IFRSs”) promulgated by the International Accounting Standards Board (“IASB”), and Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) of the IASB.

4 Changes in accounting policies

4.1 New and amended standards adopted by the Group

The following new amendments or standards were effective for the current period.

Notes to the consolidated financial statements (continued)

<i>Standard or Interpretation</i>	<i>Effective for annual periods beginning</i>
IFRS 3 Amendment – Reference to the conceptual framework	1 January 2022
IAS 16 – Amendments – Proceeds before intended use	1 January 2022
IAS 37 – Amendments – Onerous contracts -Cost of fulfilling a contract	1 January 2022
Annual Improvements 2018-2020 Cycle	1 January 2022

IFRS 3 – Reference to the conceptual framework

The amendments add a requirement that, for obligations within the scope of IAS 37, an acquirer applies IAS 37 to determine whether at the acquisition date a present obligation exists as a result of past events. For a levy that would be within the scope of IFRIC 21 Levies, the acquirer applies IFRIC 21 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date. The amendments also add an explicit statement that an acquirer does not recognise contingent assets acquired in a business combination.

The adoption of the amendments did not have a significant impact on the Group's consolidated financial statements.

IAS 16 Amendments - Proceeds before intended use

The amendment prohibits an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the entity is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss.

The adoption of the amendment did not have a significant impact on the Group's consolidated financial statements.

IAS 37 Amendments – Onerous contracts- Cost of fulfilling a contract

The amendments specify which costs an entity includes when assessing whether a contract will be loss-making.

The amendments clarify that for the purpose of assessing whether a contract is onerous, the cost of fulfilling the contract includes both the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts.

The amendments are only to be applied to contracts for which an entity has not yet fulfilled all of its obligations at the beginning of the annual period in which it first applies the amendments.

The adoption of the amendment did not have a significant impact on the Group's consolidated financial statements.

Annual Improvements 2018-2020 Cycle

Amendment to IAS 1 simplifies the application of IFRS 1 by a subsidiary that becomes a first-time adopter after its parent in relation to the measurement of cumulative translation differences. Subsidiary that is a first-time adopter later than its parent might have been required to keep two parallel sets of accounting records for cumulative translation differences based on different dates of transition to IFRSs. However, the amendment extends the exemption to cumulative translation differences to reduce costs for first-time adopters.

4 Changes in accounting policies (continued)

4.1 New and amended standards adopted by the Group (continued)

Annual Improvements 2018-2020 Cycle (continued)

Amendment to IFRS 9 relates to the '10 per cent' Test for Derecognition of Financial Liabilities – In determining whether to derecognise a financial liability that has been modified or exchanged, an entity assesses whether the terms are

2022

مجموعة الصناعات الوطنية القابضة
National Industries Group Holdingالتقرير السنوي
Annual Report

▶ Notes to the consolidated financial statements (continued) ◀

substantially different. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability.

Amendment to IFRS 16 avoids the potential for confusion in applying IFRS 16 Leases because of how Illustrative Example 13 accompanying IFRS 16 had illustrated the requirements for lease incentives. Before the amendment, Illustrative Example 13 had included as part of the fact pattern a reimbursement relating to leasehold improvements; the example had not explained clearly enough the conclusion as to whether the reimbursement would meet the definition of a lease incentive in IFRS 16. The IASB decided to remove the potential for confusion by deleting from Illustrative Example 13 the reimbursement relating to leasehold improvements.

Amendment to IAS 41 removes the requirement in IAS 41.22 to exclude taxation cash flows when measuring fair value. This amendment aligns the requirements in IAS 41 on fair value measurement with those in other IFRS Standards.

The adoption of the amendments did not have a significant impact on the Group's consolidated financial statements.

4.2 IASB Standards issued but not yet effective

At the date of authorisation of these consolidated financial statements, certain new standards, amendments and interpretations to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the Group.

Management anticipates that all of the relevant pronouncements will be adopted in the Group's accounting policies for the first period beginning after the effective date of the pronouncements. Information on new standards, amendments and interpretations that are expected to be relevant to the Group's consolidated financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Group's consolidated financial statements.

<i>Standard or Interpretation</i>	<i>Effective for annual periods beginning</i>
IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments	No stated date
IAS 1 Amendments- Disclosure of accounting policies	1 January 2023
IAS 1 Amendments- Classification of liabilities with debt covenants	1 January 2024
IAS 1 Amendments- Classification of current and non-current	1 January 2024
IAS 8 Amendments- Definition of accounting estimates	1 January 2023
IAS 12 Income taxes- Deferred tax related to assets and liabilities arising from a single transaction	1 January 2023
IFRS 16 Amendments- Leases	1 January 2024

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments

The Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011) clarify the treatment of the sale or contribution of assets from an investor to its associate or joint venture, as follows:

- require full recognition in the investor's financial statements of gains and losses arising on the sale or contribution of assets that constitute a business (as defined in IFRS 3 Business Combinations)

► Notes to the consolidated financial statements (continued) ◀

- require the partial recognition of gains and losses where the assets do not constitute a business, i.e. a gain or loss is recognised only to the extent of the unrelated investors' interests in that associate or joint venture.

These requirements apply regardless of the legal form of the transaction, e.g. whether the sale or contribution of assets occurs by an investor transferring shares in a subsidiary that holds the assets (resulting in loss of control of the subsidiary), or by the direct sale of the assets themselves.

IASB has postponed the effective date indefinitely until other projects are completed. However, early implementation is allowed. Management anticipates that the application of these amendments may have an impact on the Group's consolidated financial statements in future should such transactions arise.

IAS 1 Amendments – Disclosure of accounting policies

The amendments to IAS 1 require entities to disclose material accounting policies instead of significant accounting policies. The amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial.

Management does not anticipate that the adoption of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

IAS 1 Amendments - Classification of liabilities with debt covenants

The amendments to IAS 1 clarify that classification of liabilities depends only on the covenants that an entity is required to comply with on or before the reporting date of the classification of a liability as current or non-current. In addition, an entity has to disclose information in the notes that enables users of financial statements to understand the risk that non-current liabilities with covenants could become repayable within twelve months.

Management does not anticipate that the adoption of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

IAS 1 Amendments - Classification of current or non-current

The amendments to IAS 1 clarify the classification of a liability as either current or non-current is based on the entity's rights at the end of the reporting period. Stating management expectations around whether they will defer settlement or not does not impact the classification of the liability. It has added guidance about lending conditions and how these can impact classification and has included requirements for liabilities that can be settled using an entity's own instruments.

Management does not anticipate that the adoption of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

4 Changes in accounting policies (continued)

4.2 IASB Standards issued but not yet effective (continued)

IAS 8 Amendments – Definition of accounting estimates

The amendments to IAS 8 inserted the definition of accounting estimates replacing the definition of a change in accounting estimates. Accounting estimates are now defined as monetary amounts in financial statements that are subject to measurement uncertainty.

Management does not anticipate that the adoption of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

IAS 16 Amendments – Leases

The amendments to IFRS 16 requires a seller-lessee to measure the right-of-use asset arising from a sale and leaseback transaction at the proportion of the previous carrying amount of the asset that relates to the right of use the

**2022****مجموعة الصناعات الوطنية القابضة**
National Industries Group Holding**التقرير السنوي**
Annual Report

► Notes to the consolidated financial statements (continued) ◀

seller-lessee retains. Accordingly, in a sale and leaseback transaction the seller-lessee recognises only the amount of any gain or loss that relates to the rights transferred to the buyer-lessor. The initial measurement of the lease liability that arise from a sale and leaseback transaction is a consequence of how the seller-lessee measures the right-of-use asset and the gain or loss recognised at the date of the transaction. The new requirements do not prevent a seller-lessee from recognising in any gain or loss relating to the partial or full termination of a lease.

Management does not anticipate that the adoption of the amendments in the future will have a significant impact on the Group's consolidated financial statements.

5 Summary of significant accounting policies

The significant accounting policies and measurements bases adopted in the preparation of the consolidated financial statements are summarised below:

5.1 Basis of consolidation

The parent controls a subsidiary if it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary. The financial statements of the subsidiaries are prepared for reporting dates which are typically not more than three months from that of the Parent Company, using consistent accounting policies. Adjustments are made for the effect of any significant transactions or events that occur between that date and the reporting date of the Parent Company's financial statements.

All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Where unrealised losses on intra-Group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from a Group perspective.

Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the year are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable.

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's profit or loss and net assets that is not held by the Group. The Group attributes total comprehensive income or loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests.

When a controlling interest in the subsidiaries is disposed of, the difference between the selling price and the net asset value plus cumulative translation difference and goodwill is recognised in the consolidated statement of profit or loss. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 when applicable, or the cost on initial recognition of an investment in an associate or a joint venture.

However, changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Parent Company.

5.2 Business combinations

The Group applies the acquisition method in accounting for business combinations. The consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets

► Notes to the consolidated financial statements (continued) ◀

transferred, liabilities incurred and the equity interests issued by the Group, which includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition costs are expensed as incurred. For each business combination, the acquirer measures the non-controlling interests in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through the consolidated statement of profit or loss.

The Group recognises identifiable assets acquired and liabilities assumed in a business combination regardless of whether they have been previously recognised in the acquiree's financial statements prior to the acquisition. Assets acquired and liabilities assumed are generally measured at their acquisition-date fair values.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Goodwill is stated after separate recognition of identifiable intangible assets. It is calculated as the excess of the sum of a) fair value of consideration transferred, b) the recognised amount of any non-controlling interest in the acquiree and c) acquisition-date fair value of any existing equity interest in the acquiree, over the acquisition-date fair values of identifiable net assets. If the fair values of identifiable net assets exceed the sum calculated above, the excess amount (i.e. gain on a bargain purchase) is recognised in the consolidated statement of profit or loss immediately.

5.3 Goodwill and other intangible assets

5.3.1 Goodwill

Goodwill represents the future economic benefits arising from a business combination that are not individually identified and separately recognised. Goodwill is carried at cost less accumulated impairment losses.

5.3.2 Other intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition.

5 Summary of significant accounting policies (continued)

5.3 Goodwill and other intangible assets (continued)

5.3.2 Other intangible assets (continued)

Following initial recognition, intangible assets with finite useful lives are carried at cost less any accumulated amortisation and any accumulated impairment losses. The useful life and amortisation method are reviewed periodically to ensure that the method and period of amortisation are consistent with the expected pattern of economic benefits from items of finite intangible assets. Intangible assets with indefinite useful lives are carried at cost less accumulated impairment losses.

5.3.2.1 Indefeasible Rights of Use (IRU)

IRU are the rights to use a portion of the capacity of a terrestrial or submarine transmission cable granted for a fixed period. IRUs are recognised at cost as an asset when the Group has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibres or dedicated wave length bandwidth and the duration of the right is for the major part of the underlying asset's economic life. They are amortised on a straight-line basis over the shorter of the expected period of use and the life of the contract which ranges between 10 to 15 years.

**2022****مجموعة الصناعات الوطنية القابضة**
National Industries Group Holding**التقرير السنوي**
Annual Report

► Notes to the consolidated financial statements (continued) ◀

5.4 Investment in associates

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The Group's investment in associates is accounted for under the equity method of accounting, i.e. on the statement of financial position at cost plus post-acquisition changes in the Group's share of the net assets of the associate, less any impairment and the consolidated statement of profit or loss reflects the Group's share of the results of operations of associate.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate and joint venture recognised at the date of acquisition is recognised as goodwill.

The goodwill is included within the carrying amount of the investment and is assessed for impairment as part of that investment. Any excess of the Parent Company's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in the consolidated statement of profit or loss.

Distributions received from the associate and joint venture reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the Group's share in the associate arising from changes in the equity of the associate and joint venture. Changes in the Group's share in associate's equity are recognised immediately in the consolidated statement of changes in equity.

When the Group's share of losses in an associate equal or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions with associate are eliminated to the extent of the Group's share in the associate. Unrealised losses are also eliminated unless the transactions provide evidence of impairment in the asset transferred.

An assessment for impairment of investment in associates is performed when there is an indication that the asset has been impaired, or that impairment losses recognised in prior years no longer exist.

5 Summary of significant accounting policies (continued)

5.4 Investment in associates (continued)

The financial statements of the associate are prepared either to the Parent Company's reporting date or to a date not earlier than three months of the Parent Company's reporting date using consistent accounting policies. Where practicable, adjustments are made for the effect of significant transactions or other events that occurred between the reporting date of the associates and the Parent Company's reporting date.

Upon loss of significant influence over the associate, the Group measures and recognises any retaining investment at its fair value. Any differences between the carrying amount of the associate upon loss of significant influence and the fair value of the remaining investment and proceeds from disposal are recognised in the consolidated statement of profit or loss.

However, when the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

► Notes to the consolidated financial statements (continued) ◀

5.5 Segment reporting

The Group has four operating segments: investments and financial services, real estate and construction, specialist engineering and chemical, and IT services segments. In identifying these operating segments, management generally follows the Group's service lines representing its main products and services. Each of these operating segments is managed separately as each requires different approaches and other resources.

For management purposes, the Group uses the same measurement policies as those used in its financial statements. In addition, assets or liabilities which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

5.6 Revenue

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control of a product or service to a customer. The Group follows a 5-step process:

- 1 Identifying the contract with a customer
- 2 Identifying the performance obligations
- 3 Determining the transaction price
- 4 Allocating the transaction price to the performance obligations
- 5 Recognising revenue when/as performance obligation(s) are satisfied

The Group often enters into transactions involving a range of the Group's products and services.

In all cases, the total transaction price for a contract is allocated amongst the various performance obligations based on their relative stand-alone selling prices. The transaction price for a contract excludes any amounts collected on behalf of third parties.

Revenue is recognised either at a point in time or over time, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers.

The Group recognises revenue from the following major sources:

5.6.1 Sale of goods

Revenue from sale of goods is recognized at the point in time when control of the asset is transferred to the customers generally upon delivery or shipment of the goods.

5 Summary of significant accounting policies (continued)

5.6 Revenue (continued)

5.6.1 Sale of goods (continued)

Revenue from the sale of goods with no significant service obligation is recognised on delivery.

In determining the transaction price for the sale of goods, the Group considers the effects of variable consideration, the existence of significant financing components, non-cash consideration and consideration payable to the customer (if any).

5.6.2 Rendering of services

The Group generates revenues from after-sales service and maintenance, consulting, hotel operations, IT services and construction contracts. Consideration received for these services is initially deferred, included in other liabilities and is recognised as revenue in the period when the service is performed.

**2022**مجموعة الصناعات الوطنية القابضة
National Industries Group Holdingالتقرير السنوي
Annual Report**Notes to the consolidated financial statements (continued)**

In recognising after-sales service and maintenance revenues, the Group considers the nature of the services and the customer's use of the related products, based on historical experience.

The Group also renders hotel services and revenue from rendering of services is recognised in the accounting period in which the services are rendered or performed. Room revenue is recognised on the rooms occupied on a daily basis and food and beverage and other related sales are accounted for at the time of sale.

The Group earns fees and commission income from diverse range of asset management, investment banking, custody, consulting and brokerage services provided to its customers. Fees and commission income are recognised over the period of the service.

5.7 Interest income

Interest income is reported on an accrual basis using the effective interest method.

5.8 Dividend income

Dividend income is recognised at the time the right to receive payment is established.

5.9 Rental income

Rental income arising from investment properties is accounted for on a straight-line basis over the lease term.

5.10 Operating expenses

Operating expenses are recognised in consolidated statement of profit or loss upon utilisation of the service or at the date of their origin.

5.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

5.12 Taxation**5.12.1 National Labour Support Tax (NLST)**

NLST is calculated in accordance with Law No. 19 of 2000 and the Minister of Finance Resolutions No. 24 of 2006 at 2.5% of taxable profit of the Group after deducting directors' fees for the year. As per law, income from associates and subsidiaries, cash dividends from listed companies which are subjected to NLST have to be deducted from the profit for the year.

5 Summary of significant accounting policies (continued)**5.12 Taxation (continued)****5.12.1 National Labour Support Tax (NLST) (continued)**

For the year ended 31 December 2021, one of the subsidiaries of the Group has no liability towards NLST in line with agreement between The Islamic Republic of Pakistan and the State of Kuwait for the "avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on income" which state that income source shall be taxed only in the Contracting State.

5.12.2 Zakat

Contribution to Zakat is calculated at 1% of the profit of the Group attributable to the shareholders of the Parent Company in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007.

Under the Zakat regulations, no carry forward of losses to the future years or any carry back to prior years is permitted.

► Notes to the consolidated financial statements (continued) ◀

5.12.3 Kuwait Foundation for the Advancement of Sciences (KFAS)

The contribution to KFAS is calculated at 1% of taxable profit of the Group in accordance with the modified calculation based on the Foundation's Board of Directors' resolution, which states that income from Kuwaiti shareholding associates and subsidiaries and transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

5.12.4 Withholding taxes

The Group is exempt from income taxation and withholding taxes in Kuwait. However, in some jurisdictions, investment income and capital gains are subject to withholding tax deducted at the source of the income. Withholding tax is a generic term used for the amount of withholding tax deducted of the source of the income and is not significant for the Group. The Group presents the withholding tax separately from the gross investment income in the consolidated statement of profit or loss. For the purpose of the consolidated statement of cash flows, cash inflows from investments are presented net of withholding taxes, when applicable.

5.12.5 Taxation on overseas subsidiaries

Taxation on overseas subsidiaries is calculated on the basis of the tax rates applicable and prescribed according to the prevailing laws, regulations and instructions of the countries where these subsidiaries operate.

Deferred taxation is provided in respect of all temporary differences. Deferred tax assets are recognised in respect of unutilised tax losses when it is probable that the loss will be used against future profits.

5.13 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment of value. Depreciation is calculated to write off the cost or valuation, less the estimated residual value of property, plant and equipment, on a straight-line basis over their estimated useful lives as follows:

Freehold buildings	Lower of 50 years or remaining useful life
Long leasehold property	Lower of 50 years or remaining lease term
Short leasehold property	Lease term
Property on leasehold land	to 20 years 4
Plant and machinery	to 30 years 1
Motor vehicles	to 10 years 2
Furniture and equipment	to 10 years 3

5 Summary of significant accounting policies (continued)

5.13 Property, plant and equipment (continued)

The useful life and depreciation method are reviewed periodically to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits arising from items of property.

Material residual value estimates and estimates of useful life are updated as required, but at least annually.

When assets are sold or retired, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is recognised in the consolidated statement of profit or loss and other comprehensive income.

No depreciation is provided on freehold land. Properties in the course of construction for production or administrative purposes are carried at cost, less any recognised impairment loss. Depreciation of these assets, which is on the same basis as other property assets, commences when the assets are ready for their intended use.

**2022****مجموعة الصناعات الوطنية القابضة**
National Industries Group Holding**التقرير السنوي**
Annual Report

► Notes to the consolidated financial statements (continued) ◀

5.14 Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation, and are accounted for using the fair value model.

Investment properties are initially measured at cost. Subsequently, investment properties are revalued annually and are included in the consolidated statement of financial position at their fair values. These values are supported by market evidence and are determined by external professional valuers with sufficient experience with respect to both the location and the nature of the investment property. Any gain or loss resulting from change in the fair value or the sale of an investment property is immediately recognised in the consolidated statement of profit or loss within "change in fair value of investment properties".

Investment properties are de-recognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss resulting from disposal of an investment property is immediately recognised in the consolidated statement of profit or loss within "gain/loss on sale of investment properties".

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

5.15 Leases

The Group as a lessee

A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

To apply this definition the Group assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group

5 Summary of significant accounting policies (continued)

5.15 Leases (continued)

The Group as a lessee (continued)

- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

Measurement and recognition of leases as a lessee:

At lease commencement date, the Group recognises a right-of-use asset and a lease liability on the balance sheet measured as follows:

Right-of-use asset

The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

► Notes to the consolidated financial statements (continued) ◀

Subsequent to initial measurement, the Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

Lease liability

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability is reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Group as a lessor

The Group enters into lease agreements as a lessor with respect to some of its investment properties. The Group classifies its leases as either operating or finance leases. When the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as finance lease. All other leases are classified as operating leases.

5 Summary of significant accounting policies (continued)

5.15 Leases (continued)

The Group as a lessor (continued)

When the Group is an intermediate lessor, it accounts for the head-lease and sub-lease as two separate contracts. The sub-lease is classified as finance lease or operating lease by reference to the right-of-use of asset arising from the head-lease.

Rental income from operating leases is recognised on a straight-line basis over lease term. Initial direct cost incurred in arranging and negotiating a lease are added to the carrying amount of the lease assets and recognised on a straight-line basis over the lease term.

Amounts due under finance leases are recognised as receivables. Finance lease income is allocated to the accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding for the finance lease.

5.16 Impairment testing of goodwill and non-financial assets

For impairment assessment purposes, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which management monitors goodwill.

Cash-generating units to which goodwill has been allocated (determined by the Group's management as equivalent to its operating segments) are tested for impairment at least annually. All other individual assets or cash-generating units

**2022****مجموعة الصناعات الوطنية القابضة**
National Industries Group Holding**التقرير السنوي**
Annual Report

► Notes to the consolidated financial statements (continued) ◀

are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount, which is the higher of fair value less costs to sell and value-in-use. To determine the value-in-use, management estimates expected future cash flows from the asset or each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effects of future reorganisations and asset enhancements.

Discount factors are determined individually for each asset or cash-generating unit and reflect management's assessment of respective risk profiles, such as market and asset-specific risks factors.

Impairment losses for cash-generating units reduce first the carrying amount of any goodwill allocated to that cash-generating unit. Any remaining impairment loss is charged pro rata to the other assets in the cash-generating unit. With the exception of goodwill, all assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment charge is reversed if the cash-generating unit's recoverable amount exceeds its carrying amount.

5.17 Financial instruments

5.17.1 Recognition, initial measurement and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by directly attributable transactions costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities are described below.

5 Summary of significant accounting policies (continued)

5.17 Financial instruments (continued)

5.17.1 Recognition, initial measurement and derecognition (continued)

A financial asset (or, where applicable a part of financial asset or part of group of similar financial assets) is primarily derecognised when:

- rights to receive cash flows from the assets have expired;
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either
 - (a) the Group has transferred substantially all the risks and rewards of the asset or
 - (b) the Group has neither transferred nor retained substantially all risks and rewards of the asset, but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, a new asset is recognised to the extent of the Group's continuing involvement in the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in consolidated statement of profit or loss.

► Notes to the consolidated financial statements (continued) ◀

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments are classified into the following categories upon initial recognition:

- financial assets at amortised cost
- financial assets at fair value through profit or loss (FVTPL)
- financial assets at fair value through other comprehensive (FVTOCI)

5.17.2 Classification of financial assets

The classification is determined by both:

- the entity's business model for managing the financial asset
- the contractual cash flow characteristics of the financial asset

The Group may make the following irrevocable election/designation at initial recognition of a financial asset:

- the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met (Note 5.17.3); and
- the Group may irrevocably designate a debt investment that meets the amortised cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

5 Summary of significant accounting policies (continued)

5.17 Financial instruments (continued)

5.17.3 Subsequent measurement of financial assets

a) Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding

After initial recognition, these are measured at amortised **cost** using the effective interest rate method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial.

The Group's financial assets at amortised cost comprise of the following:

• Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

• Receivables and other financial assets

Trade receivable are stated at original invoice amount less allowance for impairment.

Receivables which are not categorised under any of the above are classified as "Other receivables/Other financial assets"

b) Financial assets at FVTPL

Financial assets that do not meet the criteria for measurement at amortised cost or FVTOCI are categorised at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows

**2022****مجموعة الصناعات الوطنية القابضة**
National Industries Group Holding**التقرير السنوي**
Annual Report

► Notes to the consolidated financial statements (continued) ◀

are not solely payments of principal and interest are accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply. The category also contains investments in equity shares.

Assets in this category are measured at fair value with gains or losses recognised in consolidated statement of profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

The Group's financial assets at FVTPL comprise investment in managed portfolios and funds and investment in quoted and unquoted equity shares.

c) **Financial assets at FVTOCI**

The Group's financial assets at FVTOCI comprise of investments in managed portfolios and funds, equity shares (quoted equity shares and unquoted equity participation).

On initial recognition, the Group may make irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designate at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

5 Summary of significant accounting policies (continued)

5.17 Financial instruments (continued)

5.17.3 Subsequent measurement of financial assets (continued)

c) Financial assets at FVTOCI (continued)

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the Cumulative Changes in Fair Value Reserve. The cumulative gain or loss is transferred to retained earnings within the consolidated statement of changes in equity on sale.

Dividends on these investments in equity instruments are recognised in the consolidated statement of profit or loss.

5.17.4 Impairment of financial assets

The Group computes expected credit losses (ECL) on the following financial instruments that are not measured at fair value through profit or loss:

- Bank balances
- Short term deposits
- Accounts receivables and other financial assets

The Group recognises ECL on investment in debt instruments measured at amortised cost on balances and deposits with banks and other assets. Equity instruments are not subject to Expected Credit Losses.

► Notes to the consolidated financial statements (continued) ◀

Expected Credit Losses

The Group applies three-stage approach to measuring expected credit losses (ECL) as follows:

Stage 1: 12 months ECL

The Group measures loss allowances at an amount equal to 12-month ECL on financial assets where there has not been significant increase in credit risk since their initial recognition or on exposures that are determined to

have a low credit risk at the reporting date. The Group considers a financial asset to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'.

Stage 2: Lifetime ECL – not credit impaired

The Group measures loss allowances at an amount equal to lifetime ECL on financial assets where there has been a significant increase in credit risk since initial recognition but are not credit impaired.

Stage 3: Lifetime ECL – credit impaired

The Group measures loss allowances at an amount equal to lifetime ECL on financial assets that are determined to be credit impaired based on objective evidence of impairment.

5 Summary of significant accounting policies (continued)

5.17 Financial instruments (continued)

5.17.4 Impairment of financial assets (continued)

Stage 3: Lifetime ECL – credit impaired (continued)

Life time ECL is ECL that result from all possible default events over the expected life of a financial instrument. The 12 month ECL is the portion of life time expected credit loss that result from default events that are possible within the 12 months after the reporting date. Both life time ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis depending on the nature of the underlying portfolio of financial instruments.

Determining the stage of impairment

At each reporting date, the Group assesses whether a financial asset or group of financial assets is credit impaired. The Group considers a financial asset to be credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred or when contractual payments are 90 days past due.

At each reporting date, the Group also assesses whether there has been significant increase in credit risk since initial recognition by comparing the risk of default occurring over the remaining expected life from the reporting date with the risk of default at the date of initial recognition. The quantitative criteria used to determine a significant increase in credit risk is a series of relative and absolute thresholds. All financial assets that are 30 days past due are deemed to have significant increase in credit risk since initial recognition and migrated to stage 2 even if other criteria do not indicate a significant increase in credit risk.

Measurement of ECLs

ECLs are probability weighted estimates of credit losses and are measured as the present value of all cash shortfalls discounted at the effective interest rate of the financial instrument. Cash shortfall represent the difference between cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive. The key elements in the measurement of ECL include probability of default (PD), loss given default (LGD) and exposure at default (EAD). The Group estimates these elements using appropriate credit risk models taking into consideration the internal and external credit ratings of the assets, nature and value of collaterals, forward looking macro-economic scenarios etc.

**2022****مجموعة الصناعات الوطنية القابضة
National Industries Group Holding****التقرير السنوي
Annual Report**

► Notes to the consolidated financial statements (continued) ◀

The Group has applied simplified approach to impairment for trade and other assets as permitted under the standard. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

5.17.5 Classification and subsequent measurement of financial liabilities

The Group's financial liabilities include borrowings, bonds leasing creditors, due to banks, trade payables and other liabilities.

The subsequent measurement of financial liabilities depends on their classification as follows:

a) Financial liabilities at amortised cost

These are stated at amortised cost using effective interest rate method. The Group categorises financial liabilities at amortised cost into the following categories:

5 Summary of significant accounting policies (continued)

5.17 Financial instruments (continued)

5.17.5 Classification and subsequent measurement of financial liabilities (continued)

a) Financial liabilities at amortised cost (continued)

• Borrowings

All borrowings are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in the consolidated statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate method (EIR) amortisation process.

Wakala payables represent short-term borrowings under Islamic principles, whereby the Group receives funds for the purpose of financing its investment activities and are stated at amortised cost.

Murabaha finance payables represent amounts payable on a deferred settlement basis for assets purchased under murabaha arrangements. Murabaha finance payables are stated at the gross amount of the payable, net of deferred finance cost. Deferred finance cost is expensed on a time apportionment basis taking into account the borrowing rate attributable and the balance outstanding.

Ijara finance payable ending with ownership is an Islamic financing arrangement through which a financial institution provides finance to purchase an asset by way of renting the asset ending with transferring its ownership. This ijara finance payable is stated at the gross amount of the payable, net of deferred finance cost. Deferred finance costs are expensed on a time apportionment basis taking into account the borrowing rate attributable and the balance outstanding.

• Bonds

Bonds are stated on the consolidated statement of financial position at their principal amount, net of directly related costs of issuing the bonds to the extent that such costs have not been amortised. These costs are amortised through the consolidated statement of profit or loss over the life of the bonds using the effective interest rate method.

Finance cost is charged as an expense as it accrues, with unpaid amounts included in accounts payable and other liabilities.

• Accounts payables and other financial liabilities

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the

► Notes to the consolidated financial statements (continued) ◀

supplier or not, and classified as trade payables. Financial liabilities other than at FVTPL which are not categorised under any of the above are classified as "Other financial liabilities"

All derivative financial instruments that are not designated and effective as hedging instruments are accounted for at FVTPL.

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss, are included within finance costs or other income.

b) Financial liabilities at fair value through profit or loss (FVTPL)

Financial liabilities at FVTPL are either held for trading or designated as such on initial recognition.

Financial liabilities held for trading or designated at FVTPL, are carried subsequently at fair value with gains or losses recognised in profit or loss. All derivative financial instruments that are not designated and effective as hedging instruments are accounted for at FVTPL.

5 Summary of significant accounting policies (continued)

5.18 Amortised cost of financial instruments

This is computed using the effective interest method less any allowance for impairment. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

5.19 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

5.20 Fair value of financial instruments

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions; reference to the current fair value of another instrument that is substantially the same; a discounted cash flow analysis or other valuation models.

An analysis of fair values of financial instruments and further details as to how they are measured are provided in Note 35.

5.21 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost includes all expenses directly attributable to the manufacturing process as well as suitable portions of related production overheads, based on normal operating capacity. Costs of ordinarily interchangeable items are assigned using the weighted average cost formula.

Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

5.22 Equity, reserves and dividend payments

Share capital represents the nominal value of shares that have been issued and paid up.

Share premium includes any premiums received on issue of share capital. Any transaction costs associated with the issuing of shares are deducted from share premium.

**2022**مجموعة الصناعات الوطنية القابضة
National Industries Group Holdingالتقرير السنوي
Annual Report

► Notes to the consolidated financial statements (continued) ◀

Statutory and voluntary reserves comprise appropriations of current and prior period profits in accordance with the requirements of the companies' law and the Parent Company's Articles of Association.

Other components of equity include the following:

- foreign currency translation reserve – comprises foreign currency translation differences arising from the translation of financial statements of the Group's foreign operations into KD and the Group's share of foreign currency translation reserves shown in the associates' statement of financial position.
- cumulative changes in fair value – comprises gains and losses relating to financial assets at FVTOCI.
- treasury shares reserve – comprise of gains and losses from re-issuance of treasury shares.

Retained earnings include all current and prior period profit retained/losses incurred.

5 Summary of significant accounting policies (continued)

5.22 Equity, reserves and dividend payments (continued)

All transactions with owners of the Parent Company are recorded separately within consolidated statement of changes in equity.

Dividend distributions payable to equity shareholders are included in other liabilities when the dividends have been approved in a General Assembly meeting.

5.23 Treasury shares

Treasury shares consist of the Parent Company's own issued shares that have been reacquired by the Group and not yet reissued or cancelled. The treasury shares are accounted for using the cost method. Under this method, the weighted average cost of the shares reacquired is charged to a contra account in equity.

When the treasury shares are reissued, gains are credited to a separate account in equity, (the "gain on sale of treasury shares reserve"), which is not distributable. Any realised losses are charged to the same account to the extent of the credit balance on that account. Any excess losses are charged to retained earnings then to the voluntary reserve and statutory reserve. No cash dividends are paid on these shares. The issue of bonus shares increases the number of treasury shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

5.24 Provisions, contingent assets and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic resources will be required from the Group and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material.

Contingent assets are not recognised in the consolidated financial statements, but are disclosed when an inflow of economic benefits is probable.

Contingent liabilities are not recognised in the consolidated statement of financial position, but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

► Notes to the consolidated financial statements (continued) ◀

5.25 Foreign currency translation

5.25.1 Functional and presentation currency

The consolidated financial statements are presented in currency Kuwait Dinar (KD), which is also the functional currency of the parent company. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

5.25.2 Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the respective Group entity, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the re-measurement of monetary items denominated in foreign currency at year-end exchange rates are recognised in profit or loss.

Non-monetary items are not retranslated at year-end and are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value which are translated using the exchange rates at the date when fair value was determined. Translation difference on non-monetary asset classified as, "fair value through profit or loss" is reported as part of the fair value gain or loss in the consolidated statement of profit or loss and "financial assets at FVTOCI" are reported as part of the cumulative change in fair value reserve within equity.

5.25.3 Foreign operations

In the Group's financial statements, all assets, liabilities and transactions of Group entities with a functional currency other than the KD are translated into KD upon consolidation.

On consolidation, assets and liabilities have been translated into KD at the closing rate at the reporting date. Goodwill and fair value adjustments arising on the acquisition of a foreign entity have been treated as assets and liabilities of the foreign entity and translated into KD at the closing rate. Income and expenses have been translated into KD at the average rate over the reporting period. Exchange differences are charged/credited to other comprehensive income and recognised in the foreign currency translation reserve in equity. On disposal/liquidation of a foreign operation, the related cumulative translation differences recognised in equity are reclassified to profit or loss and are recognised as part of the gain or loss on disposal/liquidation.

5.26 Employees end of service benefits

The Group provides end of service benefits to its employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period in accordance with relevant labour law and the employees' contracts. The expected costs of these benefits are accrued over the period of employment. This liability, which is unfunded, represents the amount payable to each employee as a result of termination on the reporting date.

In addition to the end of service benefits with respect to its Kuwaiti national employees, the Group also makes contributions to the Public Institution for Social Security calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

5.27 Pensions

Contributions are paid to both defined benefit and defined contribution pension schemes of foreign subsidiaries in accordance with the recommendations of independent actuaries and advisors. Contributions to defined contribution schemes are charged to the consolidated statement of profit or loss on an accrual basis.

**2022****مجموعة الصناعات الوطنية القابضة**
National Industries Group Holding**التقرير السنوي**
Annual Report

► Notes to the consolidated financial statements (continued) ◀

In respect of defined benefit schemes a defined benefit liability (or asset) is recognised in the consolidated statement of financial position and it is calculated as the present value of the defined benefit obligation using the projected unit credit method plus any unrecognised actuarial gains or losses less any past service cost not recognised less the market value of the plan assets.

Pension expense is charged to the consolidated statement of profit or loss and is calculated as the aggregate of current service cost (using the projected unit credit method), a net interest cost on the discounted defined benefit obligation net of the expected return on plan assets, recognised past service costs and the effect of curtailments or settlements. Actuarial gains or losses are recognised in full in other comprehensive income.

5 Summary of significant accounting policies (continued)

5.28 Related party transactions

Related parties are associates, major shareholders, board of directors, executive staff, their family members and the companies owned by them. All related party transactions are carried out with the approval of the Group's management.

5.29 Share-based payment

Certain employees of the Group receive remuneration in the form of share-based payment transactions, whereby the employees render services in exchange for shares ("equity settled transactions").

Equity-settled transactions

The cost of equity-settled transactions with employees is measured under the intrinsic value method. Under this method, the cost is determined by comparing the period end market value of the company's shares with the issue price. The cost of equity settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the shares vest.

5.30 Fiduciary assets

Assets held in trust or in a fiduciary capacity are not treated as assets of the Group and accordingly are not included in these consolidated financial statements.

6 Significant management judgements and estimation uncertainty

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

6.1 Significant management judgments

In the process of applying the Group's accounting policies, management has made the following significant judgments, which have the most significant effect on the amounts recognised in the consolidated financial statements:

6.1.1 Business model assessment

The Group classifies financial assets after performing the business model test (please see accounting policy for financial instruments sections in Note 5.17). This test includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured and the risks that affect the performance of the assets. Monitoring is part of the Group's continuous assessment of whether the business model for which the

► Notes to the consolidated financial statements (continued) ◀

remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

6.1.2 Significant increase in credit risk

Estimated credit losses are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since

initial recognition. IFRS 9 does not define "significant" increase. Therefore, assessment whether the credit risk of an asset has significantly increased the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information.

6 Significant management judgements and estimation uncertainty (continued)

6.1 Significant management judgments (continued)

6.1.3 Classification of real estate

Management decides on acquisition of a real estate whether it should be classified as trading or investment property. Such judgement at acquisition determines whether these properties are subsequently measured at cost or net realisable value whichever is lower or fair value and if the changes in fair value of these properties are reported in the consolidated statement of profit or loss.

The Group classifies property as trading property if it is acquired principally for sale in the ordinary course of business. And if such properties are under development with an intention of being sold in future they are classified under trading properties under development.

The Group classifies property as investment property if it is acquired to generate rental income or for capital appreciation, or for undetermined future use. And if such properties are under development they are classified under investment properties under development.

6.1.4 Judgements in determining the timing of satisfaction of performance obligations

The determination of the whether or not performance obligation criterion set out in IFRS 15 relating to transfer of control of goods to customers has been satisfied requires significant judgement.

6.1.5 Control assessment

When determining control, management considers whether the Group has the practical ability to direct the relevant activities of an investee on its own to generate returns for itself. The assessment of relevant activities and ability to use its power to affect variable return requires considerable judgement.

6.1.6 Significant influence

Significant influence exists when the size of an entity's own voting rights relative to the size and dispersion of other vote holders, give the entity the practical ability unilaterally to direct the relevant activities of the company.

6.2 Estimates uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

6.2.1 Contract revenue

Recognised amounts of service and related receivables reflect management's best estimate of each contract's outcome and stage of completion. For more complex contracts in particular, costs to complete and contract profitability are subject to significant estimation uncertainty.

**2022****مجموعة الصناعات الوطنية القابضة**
National Industries Group Holding**التقرير السنوي**
Annual Report

► Notes to the consolidated financial statements (continued) ◀

6.2.2 Impairment of goodwill and other intangible assets

The Group determines whether goodwill and intangible assets are impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

6 Significant management judgements and estimation uncertainty (continued)

6.2 Estimates uncertainty (continued)

6.2.3 Impairment of associates

After application of the equity method, the Group determines whether it is necessary to recognise any impairment loss on the Group's investment in its associated companies, at each reporting date based on existence of any objective evidence that the investment in the associate is impaired. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the consolidated statement of profit or loss.

6.2.4 Impairment of financial assets

Measurement of estimated credit losses involves estimates of loss given default and probability of default. Loss given default is an estimate of the loss arising in case of default by customer. Probability of default is an estimate of the likelihood of default in the future. The Group based these estimates using reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

6.2.5 Useful lives of depreciable/amortisable assets

Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and other obsolescence that may change the utility of certain software, intangible assets and property, plant and equipment.

6.2.6 Impairment of inventories

Inventories are held at the lower of cost and net realisable value. When inventories become old or obsolete, an estimate is made of their net realisable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision applied according to the inventory type and the degree of ageing or obsolescence, based on historical selling prices.

Management estimates the net realisable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realisation of these inventories may be affected by future technology or other market-driven changes that may reduce future selling prices.

6.2.7 Fair value of financial instruments

Management apply valuation techniques to determine the fair value of financial instruments where active market quotes are not available. This requires management to develop estimates and assumptions based on market inputs, using observable data that market participants would use in pricing the instrument. Where such data is not observable, management uses its best estimate. Estimated fair values of financial instruments may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

▶ Notes to the consolidated financial statements (continued) ◀

6.2.8 Revaluation of investment properties

The Group carries its investment properties at fair value, with changes in fair value being recognised in the consolidated statement of profit or loss. The Group engaged independent valuation specialists to determine fair values and the valuers have used valuation techniques to arrive at these fair values. These estimated fair values of investment properties may vary from the actual prices that would be achieved in a arm's length transaction at the reporting date.

6 Significant management judgements and estimation uncertainty (continued)

6.2 Estimates uncertainty (continued)

6.2.9 Defined benefits obligation

Management's estimate of the defined benefit obligation is based on number of critical underlying assumption such as standard rates of inflation, mortality, discount rate and anticipation of future pension increases. Variation in these assumptions may significantly impact the defined benefit obligations and amount and the annual defined benefits expenses

6.2.10 Provision for foreign taxation

The Group has made provision for potential tax liabilities which may arise on foreign income. These provisions have been assessed based on information available to management as of the reporting date. The actual liability which may or may not arise if and when the relevant tax authorities make an official assessment may substantially differ from the actual provision made.

7 Subsidiaries

7.1 Composition of the Group

Details of the Group's material consolidated subsidiaries at the end of the reporting period are as follows:

Name of the subsidiary	Country of incorporation and principal place of business	Principal activity	Proportion of ownership interests held by the Group at year end	
			31 Dec. 2022	31 Dec. 2021
			%	%
Al Durra National Real Estate – KSC (Closed) (a)	Kuwait	Real Estate	97	97

National Industries Group Holdingالتقرير السنوي
Annual Report

Notes to the consolidated financial statements (continued)

14 Basic and diluted earnings/(loss) per share attributable to the owners of the Parent Company

Basic and diluted earnings/(loss) per share is calculated by dividing the profit/(loss) for the year attributable to the owners of the Parent Company by the weighted average number of shares outstanding during the year as follows:

	Year ended 31 Dec. 2022	Year ended 31 Dec. 2021
	KD '000	KD '000
Profit/(loss) for the year attributable to the owners of the Parent Company (KD '000)		
- From continuing operations	21,488	79,041
- From discontinued operations	(62)	(413)
Total	21,426	78,628
Weighted average number of shares outstanding during the year (excluding treasury shares) – shares	2,060,222,392	1,714,782,062
Basic and diluted earnings/(loss) per share attributable to the owners of the Parent Company:		
- From continuing operations	10.43 Fils	46.09 Fils
- From discontinued operations	(0.03) Fils	(0.24) Fils
Total	10.40 Fils	45.85 Fils

The basic and diluted earnings per share reported during the previous year were 54.0 Fils, (0.3) Fils and 53.7 Fils for continuing, discontinued operations and total amount respectively, before retroactive adjustments relating to rights issue (note 27) and bonus shares issue (note 31).

There were no potential dilutive shares.

15 Cash and cash equivalents

	Effective interest/ profit rate %	31 Dec. 2022 KD '000	31 Dec. 2021 KD '000
Bank balances and cash		35,450	59,188
Short term deposits	0.55 % - 5.3%	159,918	31,486
Cash and cash equivalents for the purpose of consolidated statement of financial position		195,368	90,674
Less: restricted bank balances (a)		(6)	(5,506)
Less: time deposits maturing after three months		(108,864)	(4,692)
Due to banks (b)	4.72% - 6.5%	(12,604)	(12,941)
Cash and cash equivalents for the purpose of consolidated statement of cash flows		73,894	67,535

- a) At 31 December 2021, bank balances included KD5,500 thousand restricted against letters of guarantee.
- b) Due to banks include utilised bank overdraft facilities secured by pledge of short-term deposits of KD654 thousand (2021: KD642 thousand).
- c) Cash and cash equivalents amounting to KD64 thousand (2021: KD1,400 thousand) are pledged against borrowings (Note 24).

Notes to the consolidated financial statements (continued)

18 Financial assets at fair value through profit or loss

	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000
Quoted securities:		
- Local	213,884	196,858
- Foreign	59,076	75,219
Unquoted securities:		
- Local	2,305	2,368
- Foreign	25,098	17,027
Managed portfolios and funds:		
- Investment in private equity funds	89,330	100,421
- Local funds	2,012	2,153
- Foreign portfolios	2,000	2,455
	393,705	396,501

Quoted securities and managed funds with an aggregate carrying value of KD131,877 thousand (2021: KD140,943 thousand) are pledged against borrowings (Note 24).

The Group has signed agreements whereby certain shares of financial assets at fair value through profit or loss with aggregate carrying value of KD161,442 thousand (2021: KD155,207 thousand) have been kept in custody portfolios against borrowings (Note 24).

**2022**مجموعة الصناعات الوطنية القابضة
National Industries Group Holdingالتقرير السنوي
Annual Report

Notes to the consolidated financial statements (continued)

19 Financial assets at fair value through other comprehensive income

	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000
Quoted securities:		
- Local	8,179	10,862
- Foreign	34,803	41,827
Unquoted securities:		
- Local	13,740	15,746
- Foreign	84,179	101,387
Managed portfolios and funds:		
- Local	2,467	1,827
- Foreign	21,078	22,658
	164,446	194,307

These investments are held in equity instruments for medium to long-term strategic objectives. Accordingly, management has chosen to identify these investments in equity instruments as financial assets at fair value through other comprehensive income where it is believed that the recognition of short-term fluctuations in the fair value of these financial assets in the consolidated statement of profit or loss will not be consistent with the Group's strategy to hold such investments for long-term purposes and realizing their performance potential in the long term.

Quoted securities with an aggregate carrying value of KD20,390 thousand (2021: KD26,355 thousand) and unquoted securities with an aggregate carrying value of KD564 thousand (2021: KD384 thousand) are pledged against borrowings (Note 24).

The Group has signed agreements whereby certain shares of financial assets at fair value through other comprehensive income with aggregate carrying value of KD3,670 thousand (2021: KD4,105 thousand) have been kept in custody portfolios against borrowings (Note 24).

20 Investment properties

	Dec. 2022 31	Dec. 2021 31
	KD'000	KD'000
Land and buildings in Kuwait, UAE and Saudi Arabia	52,353	55,491
Land in Kuwait and Jordan	3,780	3,903
Building in the United Kingdom	774	899
	56,907	60,293

Investments properties with a carrying value of KD38,550 thousand (2021: KD39,804 thousand) are pledged against borrowings (Note 24).

Details of fair valuation of investment properties are disclosed in Note 34.4.

Notes to the consolidated financial statements (continued)

21 Investment in associates

21.1 Details of the Group's material associates are as follows:

Name of the associate	Country of Incorporation and principal place of business	Principal activity	Proportion of ownership interest held by the Group	
			31 Dec. 2022	31 Dec. 2021
Meezan Bank Ltd – (Quoted)	Pakistan	Islamic banking	35	35
Privatisation Holding Company – KPSC (Quoted)	Kuwait	Financial services	35	36
Kuwait Cement Company – KPSC (Quoted)	Kuwait	Industrial	27	27
Mabane Company - KPSC - (Quoted) (a)	Kuwait	Real estate	18	18

- a) Although the Group owns 18% of the investee, it exercises significant influence over the associate by way of representation on the board of directors.

21.2 The movement in the carrying value of investment in associates during the year is as follows:

	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000
Balance as at 1 January	336,783	315,602
Additions during the year (a)	11,728	3,570
Share of results	38,070	30,843
Disposals	(840)	(294)
Share of other comprehensive (loss)/income	(4,039)	6,383
Dividend distributions	(9,605)	(7,003)
Impairment loss - net	(5,427)	(5,857)
Foreign currency translation adjustments	(12,290)	(6,461)
Balance at the end of the year	354,380	336,783

- a) During the year, one of the Group's subsidiaries acquired 40% equity interest in Gas and Oil Fields Services Company K.S.C (Closed) ("Investee"), a Kuwaiti unquoted company for a total consideration of KD8,000 thousand. Out of the total consideration, an amount of KD4,200 thousand was settled in cash and the balance KD3,800 thousand was set off against receivable balance from the third party.

Management believes that the Group exercises significant influence over the Investee and accordingly classified this investment as an associate. The acquisition resulted in a net bargain purchase of KD2,800 thousand (being the excess of group's share of net fair value of the associate's identifiable adjusted assets and liabilities over the cost of investment) which was recorded as a gain in the consolidated profit and loss account for the year ended 31 December 2022.

Subsequent to the reporting date, the associate increased the share capital by 50% and the subsidiary subscribed for the share capital increase in full. Consequently, the subsidiary's ownership in the associate increased from 40% to 60%, resulting into a controlling interest in the Investee.

- b) Investment in associate with a carrying value of KD1,771 thousand (2021: KD1,977 thousand) are pledged against borrowings (Note 24).
- c) The Group has signed agreements whereby certain shares of investment in associates with aggregate carrying value of KD200,208 thousand (2021: KD204,073 thousand) have been kept in custody portfolios with specialised institutions against borrowings (Note 24).

Notes to the consolidated financial statements (continued)

21 Investment in associates (continued)

21.3 Summarised financial information of material associates

Summarised financial information set out below represents the amounts presented in the financial statements of the associates (and not the Group's share of those amounts) adjusted for differences in accounting policies between the Group and the associates, where applicable.

	Mabane		Kuwait Cement		Meezan Bank		Privatisation Holding	
	2022	2021	2022	2021	2022	2021	2022	2021

Transferred from retained earnings	8,446	8,447	16,893
Balances as at 31 December 2021	28,397	14,828	43,225

Statutory reserve

In accordance with the Companies Law and the Parent Company's Articles of Association, 10% of the profit for the year before KFAS, NLST, Zakat and directors' remuneration attributable to the owners of the Parent Company is to be transferred to statutory reserve. The Parent Company may resolve to discontinue such annual transfers when the reserve totals 50% of the paid-up share capital.

Distribution of the statutory reserve is limited to the amount required to enable the payment of a dividend of 5% of paid-up share capital to be made in years when retained earnings are not sufficient for the distribution of a dividend of that amount. No transfer is required in a year in which the Group has incurred a loss or where accumulated losses exist.

General reserve

In accordance with the Parent Company's Articles of Association, a certain percentage of the profit for the year before KFAS, NLST, Zakat and directors' remuneration attributable to the owners of the Parent Company is to be transferred to the general reserve at the discretion of the Board of Directors which is to be approved at the General Assembly. No transfer is required in a year in which the Group has incurred a loss or where accumulated losses exist. There are no restrictions on distribution of general reserve.

33 Related party transactions

Related parties represent associates, directors and key management personnel of the Group, and other related parties such as major shareholders and companies in which directors and key management personnel of the Group are principal owners or over which they are able to exercise significant influence or joint control. Pricing policies and terms of these transactions are approved by the Group's management.

Details of significant related party transactions and balances are as follows:

	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000
Balances included in the consolidated statement of financial position:		
Due from related parties (included in accounts receivable and other assets)		
- Due from associate companies	17,904	12,596
- Due from key managements personnel	68	68
- Due from other related parties	2,670	921
Due to related parties (included in accounts payable and other liabilities)		
- Due to associates	20	20
- Due to other related parties	1,742	1,631
	Year ended 31 Dec. 2022	Year ended 31 Dec. 2021
	KD '000	KD '000
Transactions included in the consolidated statement of profit or loss:		
Purchase of raw materials –associates	885	821
Impairment in value of investments in associates	5,428	-
Impairment in value of accounts receivable and other assets	3,188	-
Compensation of key management personnel of the Group		
Short term employee benefits	4,266	4,204
Board of Directors' and committee remuneration including subsidiaries	1,178	2,000
Pension and end of service benefits	285	140
Cost of share-based payments	302	-
	6,031	6,344

Notes to the consolidated financial statements (continued)

34 Summary of financial assets and liabilities by category and fair value measurement

34.1 Categories of financial assets and liabilities

The carrying amounts of the Group's financial assets and liabilities as stated in the consolidated statement of financial position may also be categorized as follows:

	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000
Financial assets:		
At amortised cost:		
• Cash and cash equivalents (Note 15)	195,368	90,674
• Accounts receivable and other financial assets (Note 16)	64,362	48,540
• Financial assets at amortised cost	1,381	-
	261,111	139,214
At fair value:		
• Financial assets at FVTPL	393,705	396,501
• Financial assets at FVTOCI	164,446	194,307
	558,151	590,808
Total financial assets	817,881	730,022
Financial liabilities:		
At amortised cost:		
• Due to banks	12,604	12,941
• Accounts payable and other financial liabilities (Note 23)	80,251	71,600
• Lease liabilities	5,880	7,274
• Borrowings	570,952	586,804
• Bonds	68,100	30,000
	737,787	708,619

34.2 Fair value measurement

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income are carried at fair value and measurement details are disclosed in note 34.3 to the consolidated financial statements. In the opinion of the Group's management, the carrying amounts of all other financial assets and liabilities which are at amortised costs are considered a reasonable approximation of their fair values. The Group also measures non-financial asset such as investment properties at fair value at each annual reporting date (Note 34.4).

34.3 Fair value hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

		324,766	26,546	239,496	590,808

Measurement at fair value

The Group's finance team performs valuations of financial items for financial reporting purposes, including Level 3 fair values, in consultation with third party valuation specialists for complex valuations, where required. Valuation techniques are selected based on the characteristics of each instrument, with the overall objective of maximizing the use of market-based information.

The methods and valuation techniques used for the purpose of measuring fair values, are unchanged compared to the previous reporting year.

a) Quoted securities

Quoted securities represent all listed equity securities which are publicly traded in stock exchanges. Where quoted prices in an active market are available, the fair value of such investments have been determined by reference to their quoted bid prices at the reporting date (Level 1).

Notes to the consolidated financial statements (continued)

34 Summary of financial assets and liabilities by category (continued)

34.3 Fair value hierarchy (continued)

b) Unquoted securities (Level 2 and 3)

The consolidated financial statements include investments in unlisted securities which are measured at fair value. Fair value is estimated using discounted cash flow model or observable market prices or other valuation techniques which include some assumptions that are not supportable by observable market prices or rates.

c) Managed portfolios and funds

Private equity funds (Level 3)

The underlying investments in these private equity funds mainly represent foreign quoted and unquoted securities. Information for these investments is limited to periodic financial reports provided by the investment managers. These investments are carried at net asset values reported by the investment managers. Due to the nature of these investments, the net asset values reported by the investment managers represent the best estimate of fair values available for these investments.

Other managed portfolios and funds (Level 2 and 3)

The underlying investments of international managed portfolios and funds represent quoted and unquoted securities. They are valued based on periodic reports received from the portfolio/fund managers.

Level 3 Fair value measurements

The Group's measurement of financial assets and liabilities classified in level 3 uses valuation techniques inputs that are not based on observable market data. The impact on profit or loss and other comprehensive income would be immaterial if the relevant risk variable used to fair value the level 3 investments were changed by 5%.

The financial instruments within this level can be reconciled from beginning to ending balances as follows:

	31 Dec. 2022	31 Dec. 2021
	KD'000	KD'000
Opening balance	239,496	212,910
Net change in fair value	(15,602)	33,807
Net disposal during the year	4,709	(7,221)
Closing balance	228,603	239,496

34.4 Fair value measurement of non-financial assets

The Group's non-financial assets measured at fair value consist of investment properties. All investment properties are categorised as level 3 under the fair value hierarchy on a recurring basis at 31 December 2022 and 2021.

The movement in investment properties is as follows:

	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000
Balance as at 1 January	60,293	60,260
Additions	2,323	3,030
Disposals	(3,200)	(3,312)
Changes in fair value	(2,471)	336
Foreign currency translation	(38)	(21)
	56,907	60,293

National Industries Group Holdingالتقرير السنوي
Annual Report

Notes to the consolidated financial statements (continued)

34 Summary of financial assets and liabilities by category (continued)

34.4 Fair value measurement of non-financial assets (continued)

The fair value of the investment properties has been determined based on appraisals performed by independent, professionally qualified property valuers (two appraisals for local properties, of which one from a local bank, and one appraisal for foreign properties). The significant inputs and assumptions are developed in close consultation with management. The appraisals were carried out using two methods, a yield method and a combination of market comparison approach for land and cost minus depreciation approach for buildings as follows:

	Method of valuation	
	Dec. 2022 31	Dec. 2021 31
Land and buildings in Kuwait, UAE, Saudi Arabia and UK	Yield method and Market comparison approach for land and cost less depreciation for buildings	Yield method and Market comparison approach for land and cost less depreciation for buildings
Freehold land in Kuwait, UAE and Jordan	Market comparison approach	Market comparison approach

When the yield method is used, the appraisal capitalizes the estimated rental income stream, net of projected operating costs, using a discount rate derived from market yields implied by recent transactions in similar properties. When the actual rent differs materially from the estimated rent, adjustments have been made to the estimated rental value. The estimated rental stream considers current occupancy level, estimates of future vacancy levels, the terms of in-place leases and expectations for rentals from future leases over the remaining economic life of the buildings. The inputs used in the valuations at 31 December 2022 and 31 December 2021 were:

	Land and buildings in Kuwait, UAE, Saudi Arabia and UK	
	Dec. 2022 31	Dec. 2021 31
(Average monthly rent (per sqm	KD 0.98 to KD 113	KD1.24 to KD149.70
Yield rate	to 7.7% 6%	to 10.25% 6.51%
Vacancy rate	10%	10%

The most significant inputs, all of which are unobservable, are the estimated rental value, assumptions about vacancy levels, and the discount rate. The estimated fair value increases if the estimated rental increases, vacancy levels decline or if discount rate (market yields) decline. The overall valuations are sensitive to all three assumptions. Management considers the range of reasonably possible alternative assumptions is greatest for rental values and vacancy levels and that there is also an interrelationship between these inputs.

When the market comparison approach is used, the appraisal reflects observed prices for recent market transactions for similar properties and incorporates adjustments for factors specific to the land in question, including plot size, location, encumbrances and current use. The significant unobservable input is the adjustment for factors specific to the land in question. The extent and direction of this adjustment depends on the number and characteristics of the observable market transactions in similar properties that are used as the starting point for valuation. Although this input is a subjective judgement, management considers that the overall valuation would not be materially affected by reasonably possible alternative assumptions.

Level 3 Fair value measurements

The Group measurement of investment properties classified in level 3 uses valuation techniques inputs that are not based on observable market data. The movement in the investment properties is disclosed in Note 34.4.

Notes to the consolidated financial statements (continued)

35 Risk management objectives and policies

The Group's financial liabilities comprise due to banks, short term and long-term borrowings and bond, leasing creditors and accounts payable and other liabilities. The main purpose of these financial liabilities is to raise finance for Group operations. The Group has various financial assets such as accounts receivable and other assets, bank balance and cash, wakala investments, short term deposits and investment securities which arise directly from operations.

The Group's activities expose it to variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk.

The Board of Directors sets out policies for reducing each of the risks discussed below.

The Group also enters into derivative transactions, primarily interest rate swaps. The purpose is to manage the interest rate risks arising from the Group's sources of finance. The Group's policy is not to trade in derivative financial instruments.

35.1 Market risk

The most significant financial risks to which the Group is exposed to are described below.

a) Foreign currency risk

Foreign currency risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Group mainly operates in the Middle East, USA, United Kingdom and Pakistan and is exposed to foreign currency risk arising, primarily from US Dollar, Saudi Riyal, GBP and Pakistan Rupees. The consolidated statement of financial position can be significantly affected by the movement in these currencies. To mitigate the Group's exposure to foreign currency risk, non-Kuwaiti Dinar cash flows are monitored.

Generally, the Group's risk management procedures distinguish short-term foreign currency cash flows (due within twelve months) from longer-term cash flows. Foreign currency risk is managed on the basis of limits determined by the Parent Company's board of directors and a continuous assessment of the consolidated open positions.

The Group's significant net exposure to foreign currency denominated monetary assets less monetary liabilities at the reporting date, translated into Kuwaiti Dinars at the closing rates are as follows:

	31 Dec. 2022 <i>Equivalent</i>	31 Dec. 2021 <i>Equivalent</i>
	KD '000	KD '000
US Dollars	2,730	(1,971)
Saudi Riyals	11,272	16,717
GBP	(6,080)	(5,029)
Pakistan Rupees	2,971	2

Management of the Group estimates that a reasonable possible change in the above exchange rate would be 5%.

If the Kuwaiti Dinar had strengthened against the foreign currencies assuming the above sensitivity (5%), then this would have the following impact on the profit for the year. There is no impact on the Group's other comprehensive income.

**2022**مجموعة الصناعات الوطنية القابضة
National Industries Group Holdingالتقرير السنوي
Annual Report

Notes to the consolidated financial statements (continued)

35 Risk management objectives and policies (continued)

35.1 Market risk (continued)

a) Foreign currency risk (continued)

	Impact on profit/loss	
	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000
US Dollars	137	99
Saudi Riyals	564	(836)
GBP	(304)	251
Pakistan Rupees	149	-
	546	(486)

If the Kuwaiti Dinar had weakened against the foreign currencies assuming the above sensitivity (5%), then there would be an equal and opposite impact on the profit for the year, and the balances shown above would be negative for US Dollars and positive for Saudi Riyals.

Exposures to foreign exchange rates vary during the year depending on the volume and nature of the transactions. Nonetheless, the analysis above is considered to be representative of the Group's exposure to the foreign currency risk.

b) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future profitability or the fair values of financial instruments. The Group is exposed to interest rate risk on its short-term deposits (Note 15), borrowings (Note 24), bonds (Note 25) and due to banks (Note 15) which are both at fixed and floating interest rates. The risk is managed by the Group by managing an appropriate mix between fixed and floating rate, short term deposits and borrowings.

Positions are monitored regular to ensure positions are maintained within established limits.

The following table illustrates the sensitivity of the profit for the year to reasonable possible change of interest rate of +25 (0.25%) and -75 (0.75%) basis points with effect from the beginning of the year. The calculation is based on the Group's financial instruments held at each reporting date. All other variables are held constant. There is no impact on Group's other comprehensive income.

	Increase in interest rates		Decrease in interest rates	
	31 Dec. 2022	31 Dec. 2021	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000	KD '000	KD '000
Effect on profit/(loss) for the year	(1,141)	(1,348)	3,426	4,043

c) Equity price risk

This is a risk that the value of financial instruments will fluctuate as a result of changes in market prices, whether these changes are caused by factors specific to individual instrument or its issuer or factors affecting all instruments, traded in the market. The Group is exposed to equity price risk with respect to its listed equity investments. Equity investments are classified either as "financial assets at fair value through profit or loss" or "financial assets at fair value through other comprehensive income".

To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits determined by the Group.

Notes to the consolidated financial statements (continued)

35 Risk management objectives and policies (continued)

35.1 Market risk (continued)

c) Equity price risk (continued)

The equity price risk sensitivity is determined on the exposure to equity price risks at the reporting date. If equity prices had been 10% higher/lower, the effect on the profit for the year and other comprehensive income for the year ended 31 December would have been as follows:

A positive number below indicates an increase profit and other comprehensive income where the equity prices increase by 10%. All other variables are held constant.

	Profit/(loss) for the year		Other comprehensive income	
	31 Dec. 2022	31 Dec. 2021	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000	KD '000	KD '000
Financial assets at FVTPL	27,296	27,208	-	-
Financial assets at FVTOCI	-	-	4,298	5,269
	27,296	27,208	4,298	5,269

For a 10% decrease in the equity prices there would be an equal and opposite impact on the profit/(loss) for the year and other comprehensive income and the amounts shown above would be negative.

35.2 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group's credit policy and exposure to credit risk is monitored on an ongoing basis. The Group seeks to avoid undue concentrations of risks with individuals or groups of customers in specific locations or business through diversification of its activities.

The Group's exposure to credit risk is limited to the carrying amounts of financial assets recognised at the reporting date, as summarized below:

	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000
Cash and cash equivalents (Note 15)	195,368	90,674
Accounts receivable and other assets (Note 16)	64,362	48,540
	259,730	139,214

The Group continuously monitors defaults of customers and other counterparties, identified either individually or by Group, and incorporate this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Group's policy is to deal only with creditworthy counterparties. None of the above financial assets are past due nor impaired except account receivable and other asset. Management of the Group considers that all the above financial assets that are neither past due nor impaired for each of the reporting dates under review are of good credit quality.

In respect of receivables, the Group is not exposed to any significant credit risk exposure to any single counterparty. The credit risk for bank balances and short-term deposits is considered negligible, since the counterparties are reputable financial institution with high credit quality.

	320,227	238,176	24,025	97,316	50,278	730,022

35.4 Liquidity risk

Liquidity risk is the risk that the Group will be unable to meet its liabilities when they fall due. To limit this risk, management has arranged diversified funding sources, manages assets with liquidity in mind, and monitors liquidity on a regular basis.

The table below summarises the maturity profile of the Group's assets and liabilities. Except for investments carried at fair value through profit or loss and fair value through other comprehensive income investments, the maturities of assets and liabilities have been determined on the basis of the remaining period from the reporting date to the contractual maturity date.

The maturity profile for investments carried at fair value through profit or loss, fair value through other comprehensive income and investment properties is determined based on management's estimate of liquidation of those investments.

Maturity profile of assets and liabilities are as follows:

	At 31 December 2022			At 31 December 2021

36 Capital risk management

The Group's capital management objectives are to ensure that the Group maintains a strong credit rating and healthy ratios in order to support its business and maximise shareholder value.

The Group manages the capital structure and makes adjustments in the light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, buy back shares, issue new shares or sell assets to reduce debt.

36 Capital risk management (continued)

The capital structure for the Group consists of the following:

	31 Dec. 2022	31 Dec. 2021
	KD '000	KD '000
Borrowings	570,952	586,804
Bonds	68,100	30,000
Due to banks	12,604	12,941
	651,656	629,745
Less:		
Cash and cash equivalents	195,368	90,674
Net debt	456,288	539,071
Total equity	630,168	557,204

The Group monitors capital on the basis of the gearing ratio.

This ratio is calculated as net debt divided by the total equity as follows:

	31 Dec. 2022	31 Dec. 2021
	%	%
Net debt to equity ratio	72%	97%

37 Fiduciary assets

One of the subsidiaries of the Group manages mutual funds, portfolios on behalf of related and third parties, and maintains securities in fiduciary accounts which are not reflected in the consolidated statement of financial position. Assets under management at 31 December 2022 amounted to KD11,108 thousand (2021: KD9,973 thousand) of which assets managed on behalf of the related parties amounted to KD3,001 thousand (2021: KD2,878 thousand).

38 Contingent liabilities and capital commitments

At 31 December 2022, the Group had contingent liabilities in respect of outstanding bank guarantees amounting to KD44,374 thousand (2021: KD17,221 thousand).

At the reporting date, the Group had commitments for the purchase of investments, the acquisition of property, plant and equipment and investment properties and the incorporation of investment in associates totalling KD36,957 thousand (2021: KD30,177 thousand).

39 Legal case

In previous years, one of the Group's subsidiaries, Noor Financial Investment Company ("Noor"), had Wakala investments of KD14,324 thousand placed with a local Islamic investment company which matured in the last quarter of 2008. The investee company defaulted on settlement of these balances on the original maturity date as well as the revised maturity dates stipulated by the court. Consequently, Noor made full provision in prior years against these Wakala investments but initiated various legal cases against the investee company which were eventually decided in its favor. During 2019, Noor signed a settlement agreement with the investee company under which 50% shares of Excellent Choice General Trading and Contracting Co. - WLL (acquired company) were transferred to Noor.

▶ Notes to the consolidated financial statements (continued) ◀

39 Legal case (continued)

Prior to the above settlement agreement, the acquired company had filed lawsuits against a local bank ("Bank") claiming return of the ownership of 33,544,500 shares of Boubyan Bank, which were transferred by the Bank in its favor through a sale contract, plus any cash or in-kind dividends and other benefits related to those shares.

In January 2022, the court of first instance rendered a judgment obligating the Bank to return to the acquired company the 50,504,513 shares of Boubyan Bank and cash dividends of KD386 thousand whereas the acquired company was ordered to pay to the Bank an amount of KD14,302 thousand as a consideration of the shares, commissions and ownership transfer fees plus an amount of KD6,416 thousand as a compensation to the Bank for losses and damages. On 3 July 2022, the court of appeal substantially upheld the above judgment but revoked the KD6,416 thousand compensation to the Bank. As of the date of issuance of these consolidated financial statements, the lawsuit is still deliberated before the court of cassation.

Subsequent to the reporting date, the acquired company was able to execute part of the judgement and the 50,504,513 shares of Boubyan Bank were transferred to the acquired company on 2 February 2023. However, these shares are held under a lien in favor of the Bank until the payment of KD14,564 thousand.

Up to the date of issuing of these consolidated financial statements, the acquired company has not paid the adjudicated amount as it has so far been unable to arrange the necessary funds. According to the legal opinion of the independent legal advisors of Noor, the judgment issued by the court of appeal does not give full rights to the acquired company over the transferred shares until the payment is made and the lien is removed. These circumstances impose significant uncertainties about the timing of the payment and removal of the existing restrictions on the transferred shares.

Due to the foregoing, Noor's management believes that the possible effects of the above judgments on the Noor's consolidated financial statements cannot be determined accurately until the payment has been made and lien is removed. Therefore, any amounts arising from the above judgements will be recorded in Noor's consolidated financial statements, and consequently in the Group's consolidated financial statements, after the payment is made by the acquired company, lien is removed and related uncertainties are resolved.
